Producer - Length

Emergency Preparedness and Prevention 1000-1099			
<b>1000</b>	<b>Flammables &amp; Combustibles: Safe Handling &amp; Use</b>	<i>Safety Shorts</i>	5 min
	Careless mistakes and safety shortcuts can lead to serious problems when working around flammable and combustible materials. To ensure safety, it's critical to follow basic safety principles.		
<b>1001</b>	<b>Occupational Disease Prevention For Firefighters</b>	<i>CIRSA</i>	25 min
	During the course of their careers, firefighters may be exposed to a number of air contaminants and other environmental factors that can cause cardiovascular disease, cancer, and noise-induced hearing loss. This DVD discusses some of the common exposures firefighters face in the field and in fire stations, and what they can do to reduce their risk of contracting occupational diseases. The need for occupational medical, fitness, and nutrition programs are highlighted. Also, the importance of personal protective equipment and on-scene incident management to reduce adverse exposures is reviewed. It ends up with a discussion of the problems facing smaller fire departments to acquire the resources needed to implement needed programs, and offers solutions to solve this dilemma.		
<b>1003</b>	<b>Lessons From Ground Zero - Emergency Action Plan</b>	<i>Coastal</i>	29 min
	Lessons from Ground Zero: Emergency Action Plan (EAP) gives an overview of the many elements to be considered when creating and implementing an Emergency Action Plan. Using specific aspects of the World Trade Center recover and cleanup efforts, Lessons from Ground Zero: EAP explores the risks of working on such sites and the ways in which a properly developed EAP can provide some measure of protection from those risks. program Outline section of this leader's guide.		
<b>1004</b>	<b>Safety: Lessons From Ground Zero- Evacuation</b>	<i>Coastal</i>	23 min
	Lessons from Ground Zero: Evacuation provides an overview of the importance of following established evacuation procedures in an emergency. Using the World Trade Center events of September 11, 2001, Lessons from Ground Zero: Evacuation explores the factors to consider when creating, implementing, and executing an effective emergency evacuation plan. The program details practical concerns to be addressed when designing an evacuation plan and also discusses the specific ways employees must be prepared to follow the plan, whatever the contingency. The video portion of this program is 23 minutes long. The program can be viewed straight through by selecting Play Program from the DVD main menu. To view the program in chapters, which permits discussion during viewing, select Program Outline. Recommended discussion points and demonstration areas are identified throughout the Program Outline section of this leader's guide.		
<b>1005</b>	<b>Gory Story: Fire Prevention</b>	<i>Safety Source</i>	15 min
	The most motivating high impact DVD on the market. Fires are an everyday occurrence, but little attention is paid to fire prevention. This DVD will have a long term effect on employees related to causes, prevention and emergency action. Guaranteed to improve your company's fire prevention effort. <b>Extremely graphic scenes of burns and fire injuries.</b>		
<b>1006</b>	<b>Safety: The Gory Story: Safety Awareness (<i>Graphic</i>)</b>	<i>Safety Source</i>	9 min
	Safety Awareness presents pictures and descriptions depicting the horrible consequences that occur when employees fail to follow safety procedures. A variety of injuries and hazards are examined and viewers are confronted with the harsh reality of ignoring safety.		

<b>1007</b>	<b>Waking Up to Emergency and Disaster Management</b>	<i>CIRSA</i>	24 min
	This DVD is a useful training tool for all vulnerable entities. This comprehensive training program was specifically produced to provide entities with the knowledge and information necessary to implement disaster management programs. As community leaders, it is your obligation to your citizens to be prepared for any type of emergency or disaster. "Waking Up To Emergency and Disaster Management" can help reduce the losses associated with these potential threats.		
<b>1008</b>	<b>Emergency Preparedness At Work</b>	<i>Safety Source</i>	13 min
	This program explains how to prepare for earthquakes, tornadoes, hurricanes, and other emergencies while at work. Designed to reduce property damage and prevent injuries during emergencies.		
<b>1009</b>	<b>Biological &amp; Chemical Threats: Closing The Door</b>	<i>Coastal</i>	20 min
	Get in your safety element as Miami Vice star Philip Michael Thomas explains what each and every employee should know to eliminate chemical and biological threats. This action-packed program examines the facts on: <ul style="list-style-type: none"> <li>• Six major biological agents: anthrax, smallpox, botulism, plague, airborne tularemia and viral hemorrhagic fever (VHF)</li> <li>• Chemical agents</li> <li>• Protecting water sources</li> <li>• Vulnerability and assessment planning</li> <li>• What to do in the event of an accident or attack.</li> </ul>		
<b>1010</b>	<b>Public Building Security: It's Everyone's Concern</b>	<i>Coastal</i>	20 min
	Buildings are not as safe and secure as they once were. They are vulnerable to more dangers, including terrorist attacks. It is thus more important than ever NOT to let safety standards crumble down. Build a solid foundation of safety with this program, which examines vital building security measures to ensure the safety of everyone. <ul style="list-style-type: none"> <li>• International and domestic terrorism vs. criminal activity vs. workplace violence</li> <li>• Specific security measures</li> <li>• Communicating important information</li> </ul>		
<b>1011</b>	<b>Emergency Evacuation of Buildings and Homes</b>	<i>Safety Source</i>	124 min
	Explains the essentials of evacuations, precautions to take, and what to do in case of an emergency. Although designed for large buildings, it can be adapted to any size facility.		
<b>1012</b>	<b>Emergency Planning</b>	<i>Marcom</i>	10 min
	Each year emergency situations cause an untold number of injuries and deaths. Damages to facilities and equipment run into the billions of dollars. While every emergency situation isn't preventable, by planning ahead the effects of many of these situations can be minimized. Existing OSHA, SARA Title III, and numerous state regulations call for all facilities to meet a number of Emergency Preparedness/Crisis Management requirements. "Emergency Planning" assist facilities in complying with these regulations and help them prepare for potential emergency situations. Topics covered in these products include: <i>Causes and effects of emergencies</i> <i>Preventing the "Domino Effect"</i> <i>Creating an Emergency Plan</i> <i>The "crisis management team"</i> <i>The role of outside agencies</i> <i>Warning sirens and alarms</i> <i>Evacuation</i> <i>Using the "Fire and Explosion Planning Matrix"</i> <i>Practice sessions and drills</i>		
<b>1013</b>	<b>Earthquake Safety</b>	<i>Safety Source</i>	12 min
	Earthquakes, like tornadoes and hurricanes, hit with little or no warning. Being properly prepared can make all the difference in how you & your workplace are affected. This program teaches you how to prepare for the emergencies, from storing supplies and "Earthquake- Proofing" your environment to training your employees in all emergency & evacuation procedures. Learn how to greatly reduce the impact of earthquakes, or any natural disaster.		
<b>1014</b>	<b>Emergency: Severe Weather Alert - Are You Prepared?</b>	<i>ERI</i>	15 min
	One of the first things you need to know about severe weather is that it can happen anytime and anywhere. You must be prepared for such an event ahead of time because when the storm hits, it's often too late. This program shows viewers the precautions they must take to remain safe during a severe thunderstorm or tornado. Topics include: <i>Emergency Preparedness Plans</i> <i>Severe weather watches and warnings</i> <i>Hazards of severe thunderstorms and tornadoes</i> <i>Responding to severe weather</i>		

<b>1016</b>	<b>Tornadoes, Floods &amp; Hurricanes</b>	<i>Safety Source</i>	15 min
	Natural disasters such as tornadoes, floods and hurricanes, are a threat that everyone should be prepared for. This program is an excellent guide on what steps to take so that you and your employees are prepared both at work and at home.		
<b>1017</b>	<b>Surviving The Storm</b>	<i>National Weather Serv.</i>	21 min
	Practical step-by-step actions to take when severe weather hits. Topics: Thunderstorms; Lightning; Tornadoes. (Geared toward homes but very useful general information for all public building and employees)		
<b>1018</b>	<b>Planning For Disaster: Tornadoes</b>	<i>Coastal</i>	10 min
	<p>"As an employee, I feel good about my company and do a better job if they give me a fair say in my own safety...", says an employee interviewed in this program. Use this to illustrate how to make safety committees work. Get your employees involved in staying safe on the job.</p> <ul style="list-style-type: none"> <li>* Setting up a safety committee</li> <li>* Organizational structure</li> <li>* Feedback and evaluation</li> </ul>		
<b>1019</b>	<b>Winter Safety - General</b>	<i>Marcom</i>	13 min
	<p>Over the years employers have discovered that their employees miss more time from work as a result of "off-the-job" accidents than due to injuries experienced on the job. Many of these accidents occur during the winter holidays, as employees do things that they are not familiar with or haven't done "since last year". Fortunately, most of these accidents can be prevented. "Winter Safety" show employees how to plan ahead, look for potential hazards and avoid dangerous situations that occur during the winter holiday season. Topics covered in these products include:</p> <p><i>Christmas trees (selecting, transporting and setting up).</i>  <i>Using "string lights"</i>  <i>Safe use of extension cords and outlets</i>  <i>Fires, fireplaces and chimneys</i>  <i>Using candles</i>  <i>Fire extinguishers and fire escapes</i>  <i>Dressing for cold weather</i>  <i>Working in the cold</i>  <i>Walking and driving in ice and snow and more</i></p>		
<b>Hazard 1100-1199</b>			
<b>1100</b>	<b>HazCom: Hazard Communication for Public Employees</b>	<i>Coastal</i>	20 min
	<p>Safety involves everyone, so inform all your employees about the hazards of various chemicals at work. Comply with OSHA's Right-To-Know Standard with this life-saving training program. This look at hazard communication will familiarize workers with physical and health hazards, how exposure can occur, exposure limits, and material safety data sheets. Covers:</p> <p><i>How chemicals enter the body</i>  <i>PPE</i>  <i>Warning labels on chemical containers</i>  <i>MSDS</i></p>		
<b>1102</b>	<b>HazCom: Introduction to GHS (Globally Harmonized System)</b>	<i>Marcom</i>	20:25 min
	<p>The Introduction to GHS - created by Marcom. Information in this program is presented in a definite order, so that employees will see the relationships between the various groups of information and can retain them more easily. The sections included in the program are:</p> <ol style="list-style-type: none"> <li>a. What is the Globally Harmonized System (GHS)?</li> <li>b. Why did OSHA adopt the GHS?</li> <li>c. Hazard Classification</li> <li>d. The "Safety Data Sheet".</li> <li>e. Container Labeling (Text Elements).</li> <li>f. Container Labeling (Pictograms).</li> <li>g. Information and training.</li> <li>h. GHS Phase-in Dates.</li> <li>i. Each of the sections covers important information in one topic area, providing employees with an introduction to the Globally Harmonized System of Classification and Labeling of Chemicals, and the changes the system makes to the OSHA Hazard Communication Standard.</li> </ol>		

<b>1103</b>	<b>HazCom: GHS Container Labeling</b>	<i>Marcom</i>	<b>16:35 min</b>
	<p>Information in this program is presented in a definite order, so that employees will see the relationships between the various groups of information and can retain them more easily. The sections included in the program are:</p> <ol style="list-style-type: none"> <li>How the Globally Harmonized System (GHS) changes chemical container labeling.</li> <li>GHS Text label elements.</li> <li>GHS Label Pictograms</li> <li>Training and GHS Phase-in Dates</li> <li>Each of the sections covers important information in one topic area, providing employees with the basis for reading and understanding GHS container labels.</li> </ol>		
<b>1104</b>	<b>HazCom: GHS Safety Data Sheets</b>	<i>Marcom</i>	<b>12:18 min</b>
	<p>Information in this program is presented in a definite order, so that employees will see the relationships between the various groups of information and can retain them more easily. The sections included in the program are:</p> <p>What is the Globally Harmonized System (GHS)?</p> <p>Why did OSHA adopt the GHS?</p> <p>Hazard Classification</p> <p>The "Safety Data Sheet".</p> <p>Container Labeling (Text Elements).</p> <p>Container Labeling (Pictograms).</p> <p>Information and training.</p> <p>GHS Phase-in Dates.</p> <p>Each of the sections covers important information in one topic area, providing employees with an introduction to the Globally Harmonized System of Classification and Labeling of Chemicals, and the changes the system makes to the OSHA Hazard</p>		
<b>1105</b>	<b>HazMat: Safe and Secure</b>	<i>Coastal</i>	<b>20:00 min</b>
	<p>The USA PATRIOT Act requires security awareness training for hazmat employees. And this program helps your facility comply through a complete examination of the threats that hazmats pose.</p> <p>Security Vulnerability Analysis</p> <p>Facility security tips</p> <p>Screening of employees</p> <p>Types of threats</p>		
<b>1106</b>	<b>Hindsight - The Ken Woodward Story</b>	<i>Coastal</i>	<b>24:00 min</b>
	<p>Hindsight tells Ken's story in his own words as well as those of the people most affected by his accident: his wife and his colleagues. This is the story of one man, his family and his friends and what happened to them all the day two hazardous chemicals were mixed together for a routine cleaning procedure. It's a story of horror. Of regret. Of painful experience. And it's a story no viewer will ever forget. Reflective, thought provoking and beautifully filmed, Hindsight is Ken Woodward's emotionally charged call to action – to all of us.</p> <p>In hindsight, it never should have happened.</p> <p>In hindsight, all the warning signs were there.</p> <p>In hindsight, a good safety culture wasn't good enough.</p>		
<b>1107</b>	<b>HAZARD: Dealing with Hazardous Spills</b>	<i>Coastal</i>	<b>20 min</b>
	<p>The simplest formula for safety is knowledge. This program teaches employees how to identify, handle, and store dangerous chemicals safely and properly. More importantly, they will be trained how to respond effectively in case of an emergency. The training illustrates:</p> <ul style="list-style-type: none"> <li>Hazard Identification</li> <li>Personal Protection</li> <li>Emergency Response</li> </ul>		
<b>1108</b>	<b>HAZARD: Chemical Handling Safety - The Basics</b>	<i>Coastal</i>	<b>20 min</b>
	<p>The simplest formula for safety is knowledge. This program teaches employees how to identify, handle, and store dangerous chemicals safely and properly. More importantly, they will be trained how to respond effectively in case of an emergency. The training illustrates:</p> <ul style="list-style-type: none"> <li>Hazard Identification</li> <li>Personal Protection</li> <li>Emergency Response</li> </ul>		

## Bloodborne Pathogens 1200-1299

Bloodborne Pathogens 1200-1299			
<b>1200</b>	<b>Bloodborne Pathogens: A Refresher Program</b>	<i>Marcom</i>	16 min
	<p>All of OSHA's recent regulations not only call for employees to receive initial training, but require that employees' knowledge be "refreshed" ... through retraining ... on at least an annual basis. Since the detailed information that is required by the regulations has normally been given to employees during their initial training, retraining sessions can usually focus on things like reminding employees that they should be paying attention to the regulation in question ... and heightening their "awareness" about how the regulation affects their jobs. "Bloodborne Pathogens" give employees the information they need to refresh their knowledge of OSHA's Bloodborne Pathogens regulation... as cost effectively as possible. Topics covered in these products include:</p> <p><i>The epidemiology and symptoms of bloodborne diseases</i>  <i>How bloodborne pathogens are transmitted</i>  <i>Methods that will prevent or reduce exposure</i>  <i>Biohazard labels, signs and container "color-coding"</i>  <i>Hepatitis vaccination</i>  <i>Dealing with exposure incidents</i>  <i>Post-exposure evaluation and follow-up and more</i></p>		
<b>1201</b>	<b>Bloodborne Pathogens: Just The Facts</b>	<i>Coastal</i>	16 min
	<p>Bloodborne Pathogens: Just the Facts is designed to inform employees about BBPs – how they find their way into the workplace, who gets infected and how, as well as simple measures to prevent exposure and infection. The program covers hepatitis B, hepatitis C and HIV and how infection occurs. The program also includes safe work practices to prevent infection with BBPs and MRSA – methicillin-resistant Staph aureus – such as handwashing, environmental cleaning and PPE. In addition, important safety tips are covered on how to safely respond to emergencies involving blood and body fluids while on the job. The program is 16 minutes long and can be viewed straight through by selecting "Play Program" from the DVD main menu. To view the program in chapters, which permits discussion during viewing, select "Program Outline." Recommended discussion points are identified throughout the Program Outline section of this Leader's Guide.</p>		
<b>1202</b>	<b>Bloodborne Pathogens: Training for Employees</b>	<i>HI 5</i>	10 min
	<p>Almost all employees in the workforce can be exposed to bloodborne pathogens, often when they least expect it. To protect themselves from these microorganisms, workers must receive training and learn specific precautions, which is the purpose of this new program. Viewers will learn the hazards associated with bloodborne pathogens and how to protect themselves from exposure to these hazards by following universal precautions in each and every potential exposure situation. Topics include the Exposure Control Plan, universal precautions, PPE &amp; barrier devices and responding to exposure situations.</p>		
<b>1203</b>	<b>Bloodborne Pathogens: For Fire and Rescue</b>	<i>Coastal</i>	20 min
	<p>Bloodborne Pathogens For Fire and Rescue is designed to inform paramedics and other rescue workers on how to protect themselves and co-workers from dangerous bloodborne viruses. The program focuses on three of the most common BBPs — the HIV virus, hepatitis B and hepatitis C. It examines how they are transmitted and necessary precautions to minimize exposure while on the job. It also covers preventive hand hygiene, as well as proper housekeeping techniques and waste disposal to keep the work environment free of potentially infectious materials.</p> <p>The DVD portion of this program is 20 minutes long. The program can be viewed straight through by selecting Play Program from the DVD main menu. To view the program in chapters, which permits discussion during viewing, select Program Outline. Recommended discussion points and demonstration areas are identified throughout the Program Outline section of this leader's guide.</p>		
<b>1204</b>	<b>Bloodborne Pathogens: Law Enforcement</b>	<i>The Training Network</i>	12 min
	<p>Your law enforcement unit faces dangers every day, but bloodborne diseases need not be one of them. This program helps equip your team with the essential rules of exposure control.</p> <p><i>HBV, HIV and AIDS</i>  <i>Infectious materials</i>  <i>Work controls, Housekeeping, PPE</i></p>		

<b>1205</b>	<b>Bloodborne Pathogens: For Custodians</b>	<i>The Training Network</i>	<b>12 min</b>
	Maintenance and custodial workers regularly encounter situations where they could be exposed to a bloodborne pathogen. This DVD, produced especially for custodian and maintenance staff, demonstrates how custodians and maintenance workers can safely clean up spills of blood or other potentially infectious materials without risking exposure.		
<b>1206</b>	<b>Bloodborne Pathogens: For Employees in Various Industrial Sites</b>	<i>Summit</i>	<b>15 min</b>
	<p>This program was developed for use by the largest world health and disaster relief organization. Meets all compliance requirements with this motivating live-action video that includes a creative open using sure to grab workers' attention and hold their interest.</p> <p>This DVD is designed for training employees in various industrial sites. Many employees encounter situations where infection from blood and other body fluids is a risk factor. This program is an essential employee safety component in this age of AIDS, Hepatitis, and other bloodborne diseases.</p> <p>Your Employees Will Learn:</p> <p>Bloodborne Pathogens, Including Hepatitis B and C and HIV  Modes of Transmission  Exposure Situations  Exposure Control Plans  What to do if Exposed</p>		
<b>1207</b>	<b>Bloodborne Pathogens: First Response Environments</b>	<i>Marcom</i>	<b>10 min</b>
	<p>Bloodborne diseases are a serious concern in the United States. "Hepatitis B" infects over 70,000 people annually, and has over one million "carriers" in the U.S. The HIV virus, which usually leads to AIDS, currently infects over one million people. Because of the increasing problems with these diseases, in 1991 OSHA passed a "Bloodborne Pathogens" regulation. "Bloodborne Pathogens in First Response Environments" ... incorporating the latest medial language and needle stick guidelines... have been specifically created to assist first responders in fulfilling the OSHA Bloodborne Pathogens Standard's (29 CFR Part 1910.1030) training requirements. Topics covered in these products include:</p> <p><i>Epidemiology and symptoms of bloodborne diseases</i>  <i>Modes by which bloodborne disease is transmitted</i>  <i>The Exposure Control Plan</i>  <i>Recognition of exposure situations</i>  <i>Practices to prevent exposure</i>  <i>HBV vaccination</i>  <i>Emergency procedures</i>  <i>Signs and labels</i>  <i>Selection and use of personal protective equipment</i></p>		
<b>1208</b>	<b>Bloodborne Pathogens: Control Your Exposure</b>	<i>ERI</i>	<b>13 min</b>
	<p>This program is designed to heighten awareness about the dangers of bloodborne pathogens in the workplace. Viewers will follow the story of Ken, an industrial worker who receives a post-exposure evaluation at a health clinic after coming to the aid of an injured co-worker. Topics include:</p> <p><i>Universal precautions and PPE</i>  <i>Clean-up and disinfection of contaminated equipment</i>  <i>Emergency procedures</i></p>		
<b>1209</b>	<b>Bloodborne Pathogens: Case Histories</b>	<i>Coastal</i>	<b>21 min</b>
	<p>The real-life stories presented in this gripping program emphasize the importance of the standard precautions that can be taken to prevent exposure to bloodborne pathogens.</p> <p>Specific retraining mandated by OSHA 1910.1030  Employee work practice controls  Housekeeping and engineering controls</p>		

<b>1210</b>	<b>Bloodborne Pathogens: Employee Information on OSHA Regulations</b>	<i>Gallagher</i>	15 min
	<p>This program is designed to heighten awareness about the dangers of bloodborne pathogens in the workplace. Viewers will follow the story of Ken, an industrial worker who receives a post-exposure evaluation at a health clinic after coming to the aid of an injured co-worker. Topics include:</p> <p><i>Universal precautions and PPE</i>  <i>Clean-up and disinfection of contaminated equipment</i>  <i>Emergency procedures</i></p>		
<b>First Aid 1300 - 1399</b>			
<b>1300</b>	<b>Basic First-Aid, Part 1</b>	<i>Safety Shorts</i>	5 min
	<p>You never know when you're going to have the need to provide first aid. The actions you take immediately following an injury can literally be the difference between life and death. Be prepared for emergencies. Learn to administer basic first aid for bleeding, choking, burns, shock, and fractures. Key Training Points:</p> <p><i>Basic first aid</i>  <i>Heimlich maneuver</i>  <i>Mouth-to-mouth resuscitation</i>  <i>Signs and symptoms of medical emergencies</i></p>		
<b>1301</b>	<b>Basic First-Aid, Part 2</b>	<i>Safety Shorts</i>	5 min
	<p>Your actions during the early moments of a medical emergency are critical. If you don't know how to respond properly, you could lose valuable seconds. Learn basic principles and procedures for emergency response and first aid before you're confronted with a crisis. If you're prepared, you'll have a much better chance of acting quickly and appropriately. Key Training Points:</p> <p><i>Steps for emergency response</i>  <i>Good Samaritan laws</i>  <i>Health precautions</i>  <i>Rules of emergency care</i></p>		
<b>1302</b>	<b>First Aid: Until Help Arrives</b>	<i>HI 5</i>	10 min
	<p>Your employees never know when they'll have to respond to an injured co-worker, so it is crucial that they know what to do until help arrives. First aid, as well as knowing what to do and knowing what not to do in an emergency, can greatly reduce the extent of a person's injuries and can even save his or her life. In this program, best-selling author/EMT Martin Lesperance shares experiences and tips he's learned from 25 years of working in emergency services while showing viewers how to respond in a variety of emergency situations.</p>		
<b>1303</b>	<b>Heimlich Maneuver</b>	<i>Safety Shorts</i>	5 min
	<p>Properly performed, the Heimlich Maneuver can save a choking victim's life. Outlined is the proper use of the Heimlich Maneuver.</p>		
<b>1304</b>	<b>Cold Stress</b>	<i>Summit</i>	15 min
	<p>According to recent findings from the Center for Disease Control and Prevention, in recent years an astonishing total of 4,607 death certificates in the United States had hypothermia-related diagnoses listed as the underlying cause of death or nature of injury leading. Hazards from environmental conditions, Hypothermia and frostbite, can set in without warning and are not limited to winter alone. They can occur any season and in different environments such as freezers or refrigerators and when working underground or outdoors. Protect your workers from such chilling hazards like frostbite and hypothermia and prevent costly accidents by training with this Cold Stress course. This breakthrough Cold Stress program educates viewers about hypothermia and frostbite, their warning signs, safety measures to take before working and warning signs during work. These hazards can happen any time of year. Do not become a statistic; educate your workforce with this Cold Stress prevention program! The program covers:</p> <p><i>Frostbite</i>  <i>Hypothermia</i>  <i>Protecting Yourself</i>  <i>Best Practices</i></p>		

<b>1305</b>	<b>Hypothermia &amp; Frostbite</b>	ICON	12 min
	<p>If you or your employees work outside in cold weather, this program is for you! This informative video thoroughly covers everything employees need to know about the dangers of hypothermia and frostbite—and how to avoid them. After viewing, employees will be able to plan, prepare and protect themselves against whatever weather comes their way. Training Points:</p> <p><i>How to recognize the signs and symptoms of hypothermia and frostbite</i>  <i>How to avoid hypothermia and frostbite through proper planning and preparation</i>  <i>How to react if you or someone you work with displays symptoms of hypothermia or frostbite</i>  <i>How to protect against the elements by being prepared, and survive if caught unprepared</i></p>		
<b>1306</b>	<b>Hypothermia - Cold Weather Prevention</b>	Summit	11 min
	<p>This dynamic program is ideal for all employees who work outdoors in cold and wet environments. The program features contractors, maintenance workers, operators, and utility and delivery workers, the program creates an awareness and respect for the hazards associated with overexposure. This comprehensive program covers:</p> <p><i>What is hypothermia</i>  <i>Symptoms of hypothermia</i>  <i>Preventive measures</i>  <i>Treatment procedures</i></p>		
<b>1307</b>	<b>Heat Stress, I</b>	Safety Source	10 min
	<p>More illnesses are surfacing from employees working in abnormally high temperatures, such as in a hot warehouse or warm assembly environment. This DVD discusses heat stroke, heat stress, fainting, and precautions to take when working in a hot environment.</p>		
<b>1308</b>	<b>Heat Stress, II</b>	Marcom	12 min
	<p>Each year thousands of employees suffer the adverse effects of Heat Stress. Whether they work outdoors under the hot summer sun, or indoors with equipment and machinery that give off high levels of heat, these employees need to know how to recognize and prevent heat stress and other heat-related health problems. "Heat Stress" review how heat affects the body, the steps employees can take to prevent heat stress, and elementary first aid that can be given to a worker who has been affected by a heat-related illness. Topics covered in these products include:</p> <p><i>Situations leading to heat-related illnesses</i>  <i>Heat stress, heat exhaustion and heat stroke</i>  <i>How the body reacts to heat</i>  <i>Recognizing symptoms of heat stress</i>  <i>Preventing heat-related illnesses</i>  <i>First aid</i></p>		
<b>1309</b>	<b>Heat Stress III</b>	Summit	13 min
	<p>Excellent for workers in all industries, This Heat Stress program uses a common-sense approach and features preventive measures for reducing the chances of suffering from heat-related disorders such as heat cramps, heat exhaustion, and heat stroke. Each year, thousands of workers are overcome by heat stress. If one of your workers falls victim to heat stroke, recognizing the symptoms and taking quick corrective action is vital to minimize the negative health effects - and possibly save a life. Be proactive; train with this program and help prevent heat stress related incidents from occurring.</p> <p>This program covers:</p> <p><i>How the body handles heat</i>  <i>Types of heat-related disorders</i>  <i>Preventive measures</i>  <i>Recognizing symptoms</i>  <i>Helping co-workers suffering from heat stress</i></p>		
<b>1310</b>	<b>Heat Stress for Public Employees, Seeing Red</b>	Coastal	14 min
	<p>Heat stress, heat stroke, heat rashes, heat cramps – all are dangerous to your employees. This training DVD will give them the knowledge they need to avoid the dangers of working in hot, humid conditions. Covers:</p> <p><i>Acclimatization</i>  <i>Hydration</i>  <i>Proper clothing</i>  <i>Signs of heat fatigue</i></p>		

<b>1311</b>	<b>CPR and AED: The Chain of Survival</b>	<i>Coastal</i>	<b>19 min</b>
<p>The American Heart Association reports that effective bystander CPR provided immediately after a sudden cardiac arrest can double or triple a victim's chance of survival. Yet, only 32 percent of cardiac arrest victims get CPR from a bystander and less than eight percent of people who suffer cardiac arrest outside the hospital survive.</p> <p>Help arm your employees with important information on the cardiac chain of survival with <i>CPR and AED: The Chain Of Survival</i>. It covers the five links of the survival chain, steps for performing CPR on adults, infants and children, how to use an Automated Electronic Defibrillator (AED), and post-cardiac arrest care.</p>			
<b>Wellness, Fitness and Prevention 1400 - 1499</b>			
<b>1400</b>	<b>Wellness: Fitness &amp; Wellness</b>	<i>Marcom</i>	<b>10 min</b>
<p>A good wellness and fitness program can significantly improve employees' safety records. Studies have found that accidents and injuries occur less frequently with employees who are healthier and in better shape. "Wellness and Fitness" show employees how small changes in lifestyles can produce big benefits. While wellness is a gradual process, eliminating negative lifestyle factors can help keep employees healthy. Topics covered in these products include:</p> <p><i>The importance of "attitude."</i>  <i>Blood pressure and other stress related conditions</i>  <i>Smoking</i>  <i>Nutrition and weight control</i>  <i>Drug and alcohol use</i>  <i>Exercise</i></p>			
<b>1401</b>	<b>Ergonomics Computer Workstation Safety</b>	<i>Marcom</i>	<b>21 min</b>
<p>Today much of the work we do involves computers, whether it's in the warehouse or in the accounting department. And just like any other type of equipment, we need to know what potential problems may be involved in working with computers as well as how to use computers safely. "Computer Workstation Safety" review the safe use of computers, and offer practical solutions to many potential problems. Topics covered in these products include:</p> <p><i>Organization of work materials</i>  <i>Maintaining "neutral" positions</i>  <i>Positioning the back and torso</i>  <i>Avoiding and relieving eyestrain</i>  <i>Avoiding and relieving muscle strain</i>  <i>Tension and stress reducing exercises</i></p>			
<b>1402</b>	<b>Ergonomics: Taking Matters Into Your Own Hands</b>	<i>Coastal</i>	<b>10 min</b>
<p>Your employees' hands, arms and wrists can take a beating with continuous, non-stop work. But it doesn't have to be this uncomfortable. Give them a hand to help ease their load with this simple yet effective ergonomics program.</p> <p>Repetitive motion  Minimizing force  Eliminating direct pressure</p>			
<b>1403</b>	<b>Preventing Injury Through Body Mechanics, Ergonomics &amp; Physical Fitness</b>	<i>CIRSA</i>	<b>34 min</b>
<p>This DVD discusses the importance of using proper body mechanics, ergonomics, and physical fitness in preventing cumulative trauma injuries both on and off the job. Various scenarios involving public entity employees are depicted. Proper lifting techniques, ergonomic risk factors, using proper tools and equipment, stretching exercises, and physical fitness are emphasized.</p>			
<b>1404</b>	<b>Summer Sports - Safety Wins!</b>	<i>Coastal</i>	<b>12 min</b>
<p>Summer Sports: Safety Wins! Emphasizes the importance of taking on a new sport carefully and safely. The program explains how simple warm-up exercises can prevent common pulled muscles and torn tendons. It also outlines safety suggestions for several summertime sports.</p> <p>The program is 12 minutes long and can be viewed straight through by selecting Play Program from the DVD main menu. To view the program in chapters, which permits discussion during viewing, select Program Outline. Recommended discussion points and demonstration areas are identified throughout the Program Outline section of this leader's guide.</p>			

<b>1405</b>	<b>Back Care: Back In Action</b>	<i>Coastal</i>	20 min
	<p>Follow six co-workers as they attempt to make an office documentary on the importance of back safety. Using a humorous approach, Back in Action seeks to engage viewers and keep the material fresh. Help improve awareness and cultivate individual responsibility when it comes to back safety issues in general industry. This program covers basic anatomy of the back, warning signs of potential injury, risk factors, and most importantly, preventative measures. Show your employees how proper lifting techniques and a pro-active health regimen can go a long way toward maintaining a properly aligned spine, a strong core and better quality of life. In turn, these could help reduce costs in the future to individuals and your organization. <i>Intro/Statistics</i>: Back injuries can cost businesses more than \$12 billion annually in direct costs. (Liberty Mutual Workplace Safety Index) Three out of four injuries to the lower back occur while lifting. (Bureau of Labor Statistics). More than one million workers nationwide suffer back injuries each year (Bureau of Labor Statistics)</p>		
<b>1406</b>	<b>Back Care: Back Injury Prevention for Public Entities</b>	<i>Texas ML</i>	28 min
	<p>Back injuries are prevalent and continue to be one of the leading on-the-job injuries experienced by public entity employees. This training program is designed to address this ongoing concern by providing real scenarios faced by public entity employees performing daily jobs and tasks.</p> <p><i>Recognize the need for and benefits of maintaining a healthy back and using safe body mechanics</i>  <i>Identify the parts and functions of the back</i>  <i>Recognize common causes of back injuries</i>  <i>Understand injury prevention principles</i>  <i>Identify good body mechanics and the eight steps to a safe lift</i></p>		
<b>1407</b>	<b>Back Care: Back Injury Prevention "You're In Control"</b>	<i>Summit</i>	14 min
	<p>Back injuries are one of the leading workplace injuries - resulting in huge workers' compensation costs. Eight out of ten individuals will suffer some form of back injury in their life. Prevention requires comprehensive and engaging training for all employees. Training with a solid back safety program is, therefore, critical for any company. Motivate your workers to follow best safety practices when performing manual material handling with this dynamic training program. This Back Injury Prevention program teaches proper lifting techniques and important life lessons for maintaining a strong and healthy back. The fundamentals of good stretching and a healthy lifestyle are also covered. Use this program and reduce injuries and costs. The program addresses:</p> <p><i>How the back functions</i>  <i>Correct lifting and carrying techniques</i>  <i>Correct posture</i>  <i>Stretching to prevent injury</i>  <i>How good health reduces chance of injury</i></p>		
<b>1408</b>	<b>Back Care: Back Safety</b>	<i>Marcom</i>	12 min
	<p>For many employees, back injuries are something that "happens to the other person... not to me." Yet four out of five people will experience some type of back problems during their lives. And many back injuries are caused by common activities experienced both on and off the job... such as lifting, climbing, reaching, etc. "Back Safety" emphasize the importance of overall back care, both at work and at home, including exercises and weight control. Topics covered in these products include:</p> <p><i>How the back works</i>  <i>Common types and causes of back injuries</i>  <i>Effects of back injuries</i>  <i>Injury prevention and safety practices</i>  <i>Proper lifting techniques</i></p>		
<b>1409</b>	<b>Back Care: Back Safety for First Responders</b>	<i>Marcom</i>	15 min
	<p>Back Safety for First Responders is designed to reinforce the importance of back safety on the job. The program details the structure of the back and describes specific lifting techniques while focusing on tasks that may cause back injury as well as pro-active steps to prevent back injury.</p>		

<b>1410</b>	<b>Back Care: Strains &amp; Sprains, Avoiding the Pain</b>	<i>Coastal</i>	16 min
	Sprains and strains may not be considered serious workplace injuries, but they absolutely cause lost time, reduce wages and disrupt employee health and productivity. Reduce the risk of these injuries occurring in your workplace with this high-impact training DVD. Show your employees how strains and sprains occur, how to recognize their warning signs and how to minimize them with proper posture, exercises and other simple adjustments. Covers: <i>Good body mechanics</i> <i>Guidelines for safe lifting &amp; carrying</i> <i>Footwear that will help avoid slips, trips and falls</i> <i>Proper PPE</i> <i>Using the right tools for the job</i>		
<b>1411</b>	<b>Back: Proper General Lifting</b>	<i>Gallagher</i>	15 min
	Back safety is an important factor and bad backs account for a high loss in productivity, activity, and costs to both you and your employees. This program shows how to lift properly to avoid injury and how to keep your back healthy. Explains: <i>How the back works</i> <i>Good posture while sitting for healthy backs</i> <i>Proper lifting techniques in detail</i>		
<b>1412</b>	<b>Falls: Slips, Trips, and Falls</b>	<i>Marcom</i>	5 min
	Most employees don't give much thought to the prospect of slipping, tripping or even falling on the job. Yet these types of accidents account for more workplace injuries annually than any other accident category. Many of these injuries can be disabling... or even fatal. "Slips, Trips and Falls" show employees the situations that can lead to slips, trips and falls, and what they can do to avoid or prevent these accidents. Topics covered in these products include: Why slips, trips and falls occur; Common causes of accidents; Potential health effects of resulting injuries; Techniques used to avoid injury; The importance of safety shoes; How to fall safely.		
<b>1413</b>	<b>Falls: Fall Prevention - Fall Stop... Move Strong</b>	<i>FallStop</i>	48 min
	This program uses the results of current research about older adults and fall prevention. Our goal is to improve strength, flexibility, balance and confidence, and to reduce risk for falls, so that older adults can remain active and safe both at home and in the community.		
<b>1414</b>	<b>Falls: Slips, Trips, and Falls - Taking the Right Step</b>	<i>Coastal</i>	15 min
	One safety slip and your employees will be on the slippery road to accidents. Slips, trips and falls cause injuries in the workplace, and you have to smooth out the risks through this high-impact training program that advocates solid safety measures: awareness, good housekeeping and proper equipment use. Safety can take you a long way!		
<b>1415</b>	<b>Falls: Weather - Slippin' &amp; Slidin'</b>	<i>Safety Shorts</i>	5 min
	Ice, snow, rain and mud can appear suddenly. If you're not prepared, you risk serious injury from a slip or a fall. Slipping hazards posed by Mother Nature and steps given for protection are shown.		
<b>1416</b>	<b>Dealing with Doggie Dangers</b>	<i>Safety Shorts</i>	5 min
	Many jobs require you to be on other people's property. Anytime you walk onto someone's property, there may be an animal there ready to defend his property by attacking any intruders. Take an "urban safari" and see what you can do to reduce the chance of attack and get advice on what to do if you're dogged by dogs. (Humorous version)		
<b>Driving Safety 1500 - 1599</b>			
<b>1500</b>	<b>Implementing A Comprehensive Safe Driving Program</b>	<i>CIRSA</i>	27 min
	Vehicle accidents are the most frequent and costly types of claims for most public entities. In order to prevent and reduce the number of vehicle accidents, a comprehensive safe driving program needs to be implemented. This DVD covers the key elements of a safe driver program including; <i>motor vehicle records checks; driver training; conducting field observations; seat belt monitoring; vehicle inspections and maintenance; accident investigations.</i>		
<b>1502</b>	<b>Driving: Making Safer Roads</b>	<i>Ins Inst for Highway Safety</i>	12 min
	More than one in four deaths on US roads involves hitting a hazard along the roadside, not another vehicle. In this DVD, experts explain which roadside hazards are the worst and how to alleviate them.		

<b>1503</b>	<b>Winter Safety Driving</b>	Coastal	10 min
	<p>Winter driving presents special driving hazards. This program reviews special safety techniques to help employees overcome winter driving hazards. Keep your workers safe on the road this winter.</p> <ul style="list-style-type: none"> <li>- Basic emergency equipment</li> <li>- Rain, snow and ice</li> <li>- The skid</li> <li>- Stopped and stranded</li> </ul>	Coastal	10 min
<b>1504</b>	<b>Winter Safety - Roadway Safety</b>	Coastal	24 min
	<p>Winter driving presents special driving hazards. This program reviews special safety techniques to help employees overcome winter driving. Roadway work is full of potential hazards — from passing traffic and trenches to electrical wires and hearing loss. Help reduce injuries and fatalities with this vital training program pertaining to: Roadwork hazards, Flagging, Night-work, operations, PPE, Special training, MSDS, Traffic Control Pattern Awareness.</p>		
<b>1505</b>	<b>Driving Safety</b>	Marcom	15 min
	<p>Most employees travel the roads every day... in cars, vans or trucks... many of them on company business. Each year, traffic accidents claim over 30,000 lives and cause more than a million serious injuries. In fact, motor vehicle crashes are the number one cause of death on the job. "Driving Safety" provide the information employees need to drive cars, vans and small trucks safely, both on and off the job. Topics covered in these products include: <i>Inspecting the vehicle; Adjusting seats, mirrors and other equipment; Wearing seatbelts; Mental preparation and concentration; Creating a "safety cushion" around your vehicle; Passing another vehicle; Driving at night; Adverse weather conditions, skidding and hydroplaning; What to do in case of an accident.</i></p>		
<b>1507</b>	<b>Defensive Driving: 15-Passenger Vans</b>	Coastal	10 min
	<p>Fatal rollovers and other accidents involving 15-passenger vans occur because the drivers are inexperienced and untrained. This valuable program will provide your drivers with important safety tips to help them operate the vans safely, protect passengers &amp; avoid accidents. Topics: <i>Loading and handling; Common causes of rollovers; Safety guidelines; Buckling up.</i></p>		
<b>1508</b>	<b>Driven to Distraction</b>	Coastal	20 min
	<p>Nearly 6,000 people died in 2008 from fatal crashes involving distracted drivers, according to the National Highway Traffic Safety Administration. Distracted driving continues to be an epidemic on our roads. Help raise awareness of this dangerous practice among your employees with this high-impact training DVD. Once, again, the Distraction Demon rides along with various drivers egging them on to give in to the myriad of distractions tempting today's drivers. Topics: <i>Cell phone use; Talking to passengers; Reaching into laptop case; GPS; Chatting, texting, tweeting; MP3 players; Personal grooming; Eating and drinking.</i></p>		
<b>1509</b>	<b>Defensive Driving: A Crash Course</b>	Coastal	10 min
	<p>Motor vehicle crashes consistently account for a huge number of injuries and lost work days. Keep your employees safe behind the wheel, on the job and off. Give them the tips they need to become defensive drivers and avoid costly accidents. Topics: <i>Plan and prepare; A defensive attitude; Distractions; City driving; Freeways; Rural roads.</i></p>		
<b>1510</b>	<b>Defensive Driving for Government Employees</b>	Coastal	10 min
	<p>Every 12 minutes in the United States, someone dies in a car accident. Every 14 seconds someone suffers a disabling injury. That's nearly 43,000 deaths and countless more major injuries every year on our roads. And for government employees, motor vehicle accidents are by far the leading cause of death on the job. This program looks at techniques to help prevent accidents from happening, and in the case of unavoidable accidents, help lessen their severity. Topics: <i>What is defensive driving?; Respect for the vehicle; Your responsibility as a driver; Proper/safe driving techniques; Seat belts; Driving in poor weather; Speeding, right-of-way, passing, tailgating; Distractions and road rage.</i></p>		
<b>1511</b>	<b>Defensive Driving: Prepared For the Worst</b>	Coastal	10 min
	<p>Defensive drivers anticipate how to deal with road hazards, poor weather conditions, vehicle collisions and crime. This program shows how to stay in control by being prepared for the worst! Topics: <i>Nature's forces; Night driving; Breakdown basics; Accidents; Road construction; Personal security.</i></p>		

<b>1512</b>	<b>Driving: Emergency Vehicle Response Driving</b>	<i>Coastal</i>	<b>10 min</b>
	There are risks when you're at the wheel, but when you're driving an emergency vehicle -- with lights and sirens blaring -- the risks multiply! This program shows what it means to drive during emergencies and includes neat tips to ensure that drivers reach their destinations - ON TIME, SMOOTHLY and SAFELY. <i>Driving basics -- stop signs, red lights and school zones; Speed limits, traffic flow and turn lanes; Stopping, parking and standing; Passing other vehicles; Highway driving; Police chases; Accidents; Planning ahead; Communication; Maintenance.</i>		
<b>1513</b>	<b>Defensive Driver Awareness</b>	<i>TMLRMP</i>	<b>10 min</b>
	Covers distractions, such as cell phones, computers and anything else that can deter from safe driving practices. Topics: <i>Emergency vehicles approaching and crossing intersections; Backing out of parking areas; Wrong lane changes; Everyday driving; Vehicle prep.</i>		
<b>1514</b>	<b>Understanding Car Crashes (When Physics Meets Biology)</b>	<i>Ins Inst for Highway Safety</i>	<b>24 min</b>
	Why do some car crashes produce only minor injuries? How can a single crash of a car into a wall involve three separate collisions? Griff Jones, award-winning science teacher, returns to the Insurance Institute for Highway Safety's Vehicle Research Center to answer these questions and to examine the laws of nature that determine what happens to the human body in a crash. Jones reviews levels of organization in the body and explains how body cavities house and protect major internal organs. Through creative experiments, he explores how the third collision can cause injuries to organs. He introduces the concepts of stress and strain. He demonstrates how shockwaves can damage tissue and what happens at the cellular level. Tools from the field of injury biomechanics, like biofidelic crash test dummies, help doctors and engineers determine what works to reduce injuries and deaths in crashes.		
<b>1515</b>	<b>Driving: Reducing Your Risks in the Crash</b>	<i>Ins Inst for Highway Safety</i>	<b>9 min</b>
	The best way to reduce the risks is to make sure everyone in the vehicle is effectively restrained. This DVD uses test footage of what happens during crashes to show how to get the most from occupant restraints. For example, it shows how to buckle up properly and why you should sit back from the steering wheel and airbag.		
<b>1516</b>	<b>Defensive Driving: Before You Turn the Key</b>	<i>Coastal</i>	<b>20 min</b>
	<p>Brush up on what drivers should do before they get in a vehicle and turn the key. Follow the main character, Highway Patrolman Ben Sullivan, as he describes the incidents that could have been avoided if people had only taken the time to think and pay attention to what was in and around their cars.</p> <p>How to custom fit almost any vehicle for driver's safety  Properly adjusting mirrors to achieve optimum view  Understand how safety belts and airbags work together  Why and how to do a walk-around inspection  How to avoid distractions while driving by being familiar with the dashboard and instruments  The proper position for the headrest to help prevent neck injuries  How drivers can protect themselves and others when backing up</p>		
<b>Governmental Liability Safety 1600 - 1699</b>			
<b>1600</b>	<b>Media Relations: What To Do When The News Is You</b>	<i>Coastal</i>	<b>20 min</b>
	This important program will teach your plant managers, supervisors and even line workers how to handle the media effectively. • What information to release • Building a good relationship with the media • Avoiding negative publicity		
<b>1601</b>	<b>Special Events . . . Special Liabilities</b>	<i>CIRSA</i>	<b>17 min</b>
	Concerts in the park, festivals lasting several days, even frog jumping contests are special events with very unique liabilities for public entities. This DVD emphasizes the importance of pre-event planning. It covers topics such as site safety surveys; crowd control; establishing emergency plans; traffic control; common liability exposures and special insurance requirements.		
<b>1602</b>	<b>Liability: Understanding Governmental Liability</b>	<i>CIRSA</i>	<b>19 min</b>
	Examining common liability situations that municipal employees may encounter during the course of their jobs. Scenarios involving auto liability, general liability, sexual harassment, police liability and workers' compensation are included. Governmental immunity issues, acting in a willful and wanton manner, and proper reporting of claims are also addressed. The DVD can be used to train both new and existing employees on how to handle potential liability situations.		

<b>1603</b>	<b>Liability: Preventing Public Officials Liability - In The Scope Of Your Authority</b>	CIRSA	17 min
	This DVD discusses how elected and appointed officials can avoid mistakes that can lead to liability claims and identifies best practices that will allow officials to be successful. Key topics include quasi-judicial hearings, legislative matters, delegating administrative and personnel issues, electronic communications, and maximizing liability protections.		
<b>1604</b>	<b>Liability: Public Officials Liability</b>	TMLRMP	29 min
	Public officials need to know the areas of liability that affect them. This DVD will explain the many avenues of liability that must be considered.		
<b>1605</b>	<b>Aquatic Risk Management: Keeping Your Head Above Water</b>	CIRSA	25 min
	The number and complexity of aquatic facilities has grown significantly over the years, which has contributed to an increased risk of drowning, spinal injuries, slips and falls and other serious incidents. This video was created to assist public entities avoid some of the risks associated with operating swimming pools and aquatic facilities. The key topics that are discussed in this video include: <ul style="list-style-type: none"> <li>• Personnel and supervision</li> <li>• Lifeguard training</li> <li>• Emergency action plans</li> <li>• Patron communication and education</li> <li>• Employee safety</li> <li>• Facility design, inspection, and maintenance.</li> </ul>		
<b>1606</b>	<b>Recreational Activity Liability</b>	CIRSA	15 min
	Protect your entity from recreational liability with this DVD that's designed to help supervisors and managers of recreational facilities identify physical and personnel exposures, and controls to help prevent accidents. Topics include safety for <i>swimming pools, gymnastics, skateboard facilities and ice rinks.</i>		
<b>1607</b>	<b>Lifeguard Vigilance Training</b>	SwimOutlet	22 min
	For the first time ever, two topics, <i>Disappearing Dummies: Why Lifeguards Can't See</i> and <i>The 5-Minute Scanning Strategy</i> , are combined conveniently on one DVD. World-renowned aquatic safety expert Tom Griffiths explains the challenges caused by visual body blindness and introduces new techniques to stay more alert and focused while lifeguarding. This DVD first proves the difficulty of seeing and identifying a body at the bottom of the pool, then teaches rescuers the tools they need to stay more alert and make the difficult task of lifeguarding more manageable. This DVD is a must-see for all water safety professionals, including lifeguards, managers, and supervisors. The length and ease of delivery make this video perfect for in-service training. The advice and expertise of Tom Griffiths are invaluable for any aquatic safety professional.  For more aquatics resources, visit: <a href="http://www.AquaticEducationCenter.com">www.AquaticEducationCenter.com</a>		
<b>1608</b>	<b>Playgrounds: Planning SAFE Playgrounds</b>	NPPS	15 min
	Each year over 200,000 children are injured on America's playgrounds. Although some measures have been initiated to address the growing problems associated with playground safety, there has been no nationally coordinated effort in this area. In recognition of this need, the National Program for Playground Safety was created in October 1995 to help communities across the nation examine the critical issues surrounding playground safety. This National Action Plan is one of the first steps toward helping prevent many needless injuries to our children on the nation's playgrounds. The purpose of the National Action Plan for the Prevention of Playground Injuries is to provide a blueprint for playground safety. It is designed to be used by adults who care about children. Parents, teachers, recreation and park personnel, caretakers of children, and other concerned adults all have a role in providing safe play environments. The development of an appropriate play area takes careful planning. This DVD helps you evaluate the site of the playground, consider professional expertise, observe the needs of the children and work with equipment manufacturers and designers. Playground safety is a complex issue. The National Action Plan is based on four goals that provide the foundation for playground safety. These goals are to: <i>Provide proper supervision of children on playgrounds</i> <i>Design age-appropriate playgrounds</i> <i>Provide proper surfacing under and around playgrounds</i> <i>Properly maintain playgrounds</i>		
<b>1609</b>	<b>Safe Playgrounds</b>	NPPS	15 min
	An informative DVD providing an overview of the importance of Supervision, Age-appropriate design, Falls to surfaces, and Equipment maintenance to playground safety. An excellent educational tool in discussing playground safety with professional and community groups		

<b>1610</b>	<b>Safe Surfaces</b>	<i>NPPS</i>	<b>10 min</b>
	How do you select the proper safety surfacing for your playground? This informative DVD outlines criteria to ensure that surfaces under and around equipment are appropriate. Learn the Consumer Product Safety Commission guidelines and American Society for Testing and Materials standards in clear and understandable terms. A must for any group considering the acquisition or replacement of safe surfacing under and around playground equipment.		
<b>1612</b>	<b>Playgrounds: The Nuts &amp; Bolts of Playground Maintenance</b>	<i>NPPS</i>	<b>13 min</b>
	Each year over 200,000 children are injured on America's playgrounds. Although some measures have been initiated to address the growing problems associated with playground safety, there has been no nationally coordinated effort in this area. In recognition of this need, the National Program for Playground Safety was created in October 1995 to help communities across the nation examine the critical issues surrounding playground safety. This National Action Plan is one of the first steps toward helping prevent many needless injuries to our children on the nation's playgrounds. The purpose of the National Action Plan for the Prevention of Playground Injuries is to provide a blueprint for playground safety. It is designed to be used by adults who care about children. Parents, teachers, recreation and park personnel, caretakers of children, and other concerned adults all have a role in providing safe play environments. Of the 200,000 children injured on the playground each year, more than 30% of the accidents are caused by poor or inadequate maintenance.		
<b>Harassment &amp; Discrimination 1700-1799</b>			
<b>1700</b>	<b>Respect In The Workplace: Avoiding Discrimination</b>	<i>Coastal</i>	<b>24 min</b>
	To prevent discrimination, you have to understand the sinister psychology behind it. This program defines discrimination, outlines how its subtle and not-so-subtle forms can destroy relationships and explains how pre-judgment, mistaken assumptions and fear spread malice can lead to damaged camaraderie, lower production and high employee turnover. Discussion topics: Disabilities; Sexual Orientation; Stereotypes and Racial Discrimination.		
<b>1701</b>	<b>Drop by Drop - Discrimination in the Workplace</b>	<i>Coastal</i>	<b>19 min</b>
	<p>Who said you shouldn't sweat the small stuff? What if those small things undermined morale and reduced productivity? Drop by Drop, demonstrates how the small slights, subtle discriminations and tiny injustices can add up to big problems in your workplace! These little negative gestures are called "micro-inequities" and they occur in organizations every day. These small communications or disrespect, prejudice and inequality aren't overt, but they can be incredibly destructive. A poison in the workplace that isn't delivered in a bucket, but takes its toll drop by drop.</p> <p>CONSIDER: Listen, empathize, and follow the "platinum rule" by treating others as they'd like to be treated.  RESPECT: Show regard for all races, religions, cultures and ages and value the talents each person brings to the workplace.  LEARN: Be open to information about different cultures, customs and perspectives of your co-workers. Learn to communicate with kindness and clarity.</p>		
<b>1702</b>	<b>Harassment: Sex, Religion &amp; Beyond: <i>Manager Version</i></b>	<i>KANTOLA</i>	<b>24 min</b>
	Supervisors and managers have the added responsibility of maintaining a harassment-free work environment for everyone. Using the compelling stories from the employee program, the Manager version explains to supervisors the potential harm that can be caused by unwelcome conduct, and their responsibility for preventing it. They receive specific instruction on steps they should take in meeting these responsibilities.		
<b>1703</b>	<b>Harassment: Sex, Religion &amp; Beyond: <i>Employee Version</i></b>	<i>KANTOLA</i>	<b>20 min</b>
	Every employee needs to understand one basic truth: a respectful workplace is more pleasant and more productive for everyone. Bad behavior is not OK—whether it applies to sex, religion, or anything beyond...and whether it actually crosses the line into illegal harassment or not. In a series of compelling stories, the Employee version of this broadcast-quality film explains the law. But it also captures the imagination and personalizes the value of inclusiveness by showing the potential harm that can be caused by unwelcome conduct. Examples of bad behavior: Social media allows an embarrassing photo to make the rounds in a hospital; Two guys on a city crew mistreat a "less macho" coworker; Friction in a restaurant kitchen leads to insults for a busboy from another country; A religious coworker is excluded on a construction site; A client puts pressure on a company rep for a "quid pro quo" exchange; Two colleagues are offended by the inappropriate dress and flirtatious behavior of their coworkers; Retaliation takes a subtle form but is no less against company policy—and against the law.		

1704	<b>Harassment: Sexual Harassment, Is It or Isn't It?</b>	<i>Coastal</i>	17 min
<p>When it comes to sexual harassment, you can't be too sure. You can never assume that others share the same definition of sexual harassment. Nor can you afford to have your employees doubting and clueless about the issue. Do away with the grey areas, train employees on the definition of sexual harassment, create a non-threatening work environment, communicate anti-sexual-harassment policies, and stress that harassment will not be tolerated in the organization! How-To Training Points:</p> <p><i>How to define and identify sexual harassment and offensive behavior that could be considered harassment</i>  <i>How to prevent sexual harassment from occurring and improve workplace morale and productivity</i>  <i>How to take appropriate action against sexual harassment</i>  <i>How to understand the 1998 U.S. Supreme Court rulings on sexual harassment and how they affect you and your organization</i></p>			
1705	<b>Harassment: Handling a Sexual Harassment Investigation</b>	<i>Marcom</i>	10 min
<p>Sexual harassment can have an incalculable cost for victims, their families, friends and coworkers. Any form of sexual conduct in the workplace is inappropriate, and may constitute sexual harassment if the actions or comments are unwanted or threatening. But recognizing sexual harassment is only half the battle. If action isn't taken quickly, and the situation is not resolved fairly, a company can face lawsuits and hefty fines. In fact, the company's reputation, business relationships and financial security could depend on how a manager or supervisor handles a sexual harassment incident. "Handling a Sexual Harassment Investigation" look at a company's legal responsibility to prevent and deal with sexual harassment incidents, examine policies and procedures that should be followed when investigating allegations of sexual harassment, and discuss how to interview apparent victims, alleged harassers and potential witnesses. Topics covered in these products include:</p> <p><i>A company's legal responsibility regarding sexual harassment</i>  <i>Conducting an ethical investigation</i>  <i>Beginning the investigation process</i>  <i>Documenting harassment allegations</i>  <i>Interviewing alleged harassers and witnesses</i></p>			
1706	<b>Harassment: Preventing Sexual Harassment - Managers</b>	<i>Marcom</i>	10 min
<p>Most managers and supervisors have heard about fines and lawsuits brought against companies that ignore "sexual harassment". And while they are the first lines of defense in preventing sexual harassment incidents, many managers and supervisors don't know what constitutes harassment, or what they should do if it occurs. Complicating things is that recognizing sexual harassment can be difficult. Conduct that might appear harmless to one person could be harassment to others. "Preventing Sexual Harassment... for Managers and Supervisors" look at behaviors and actions that can constitute sexual harassment, discuss why managers and supervisors must pay particular attention to what they say and do, and examine how to recognize sexual harassment in the workplace.</p> <p>Topics covered in these products include:  What constitutes sexual harassment.  Managers' and supervisors' responsibilities.  Preventing sexual harassment.  Recognizing sexual harassment.  What to do if sexual harassment occurs.</p>			
1707	<b>Harassment: Preventing Sexual Harassment - Employees</b>	<i>Marcom</i>	10 min
<p>Most employees have heard the term "sexual harassment". But many of them do not know exactly what it means. More importantly, they may not be aware that some of the things they do might be considered sexual harassment. When people think about sexual harassment they often picture a male supervisor cornering a female employee to make unwanted sexual advances. While most reported cases do involve females being harassed by males, people of both genders, of any age and of any sexual orientation, can be victims. "Preventing Sexual Harassment... for Employees" discuss various forms of sexual harassment, explain how to avoid inadvertently sexually harassing someone and review the procedures employees should follow if they feel that they or a coworker are being sexually harassed. Topics covered in these products include:</p> <p><i>What constitutes sexual harassment Behaviors to avoid</i>  <i>Recognizing victims and harassers Avoiding "accidental" harassment</i>  <i>How to handle a sexual harassment incident Reporting sexual harassment to management</i></p>			

<b>1708</b>	<b>Harassment: Workplace Harassment in Industrial Facilities</b>	<i>Marcom</i>	<b>10 min</b>
	<p>Most of us cannot do our work without interacting with other people. Effective communication is usually part of the job, and cooperation can be essential. When interaction, communication and cooperation are hindered in some way the workplace can become "toxic" and threaten our sense of well-being. Feelings of stress, frustration and anger can boil to the surface. Attendance, productivity, quality and safety often suffer. When people hear the word "harassment" they usually think of sexually-related activity. But harassment encompasses a wide range of behavior... from practical jokes to intimidation. It can also include threats, verbal abuse and discrimination, even stalking and assault... and anyone can be subject to it. "Workplace Harassment in Industrial Facilities" discuss the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment.</p> <p>Topics covered in these products include:  The nature of workplace harassment.  How to recognize various types of harassment.  How to handle verbal abuse and threats.  The many forms sexual harassment can take.  How to recognize the many variations of "assault".  Knowing what to do, and what not to do, when confronted with a stalker.  How fostering a positive workplace environment can increase productivity and safety.</p>		
<b>1709</b>	<b>Harassment: Workplace Harassment in the Office</b>	<i>Marcom</i>	<b>10 min</b>
	<p>Most of us cannot do our work without interacting with other people. Effective communication is usually part of the job, and cooperation can be essential. When interaction, communication and cooperation are hindered in some way the workplace can become "toxic" and threaten our sense of well-being. Feelings of stress, frustration and anger can boil to the surface. Attendance, productivity, quality and safety often suffer. When people hear the word "harassment" they usually think of sexually-related activity. But harassment encompasses a wide range of behavior... from practical jokes to intimidation. It can also include threats, verbal abuse and discrimination, even stalking and assault... and anyone can be subject to it. "Workplace Harassment in the Office" discuss the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment. Topics covered in these products include:  <i>The nature of workplace harassment</i>  <i>How to recognize various types of harassment</i>  <i>How to handle verbal abuse and threats</i>  <i>The many forms sexual harassment can take</i>  <i>How to recognize the many variations of "assault"</i>  <i>Knowing what to do, and what not to do, when confronted with a stalker</i>  <i>How fostering a positive workplace environment can increase productivity and safety</i></p>		
<b>Human Resources 1800-1899</b>			
<b>1800</b>	<b>New Employee Safety Orientation (CD)</b>	<i>Gallagher</i>	<b>16 min</b>
	A general overview of what policies entail. Employees are also introduced to general and specific safety rules.		
<b>1801</b>	<b>Stress: Workplace Stress</b>	<i>Marcom</i>	<b>10 min</b>
	<p>In the fast-paced world that we live in, we are always encountering situations that can be stressful. Many of these occur at work. Yet stress, and its effects on our ability to do our jobs, is a subject that is often overlooked. "Workplace Stress" help employees identify potentially stressful situations and learn how to cope with them. Topics covered in these products include:  <i>Situations causing stress</i>  <i>Positive versus negative stress</i>  <i>Recognizing symptoms of stress</i>  <i>Effects of stress on the mind and body</i>  <i>Eliminating "stress factors"</i>  <i>Stress-relieving exercises</i></p>		
<b>1802</b>	<b>Stress: Working with Stress</b>	<i>NIOSH</i>	<b>17 min</b>
	A brief introduction to work stress issues for the worker and manager. Topics include the causes of job stress, physical and psychological effects, and what can be done to minimize job stress.		

<b>1803</b>	<b>Legal and Effective Progressive Discipline</b>	<i>Coastal</i>	24 min
	Systematic progressive discipline is your best safeguard against discrimination and wrongful discharge lawsuits. In this "must-see" program for supervisors and managers, learn the vital steps of progressive discipline and observe the results of its proper implementation. • How to verbally counsel an employee • Issuing a written warning • Placing an employee on suspension • Terminating an employee		
<b>1804</b>	<b>Legal and Effective - Employment Terminations</b>	<i>Coastal</i>	28 min
	This program, Legal and Effective Employment Terminations, provides you with tools to teach others how to make the termination process run smoothly. Terminating an employee evokes all kinds of emotions—in the manager, in the exiting employee, and in the other employees. This training will not only show participants how to deal with the emotions involved, but how to protect the company from legal action, minimize the pain to the exiting employee, and minimize the disturbance in the workplace. The program illustrates the various stages involved in terminating an employee. It is uniquely developed to offer the perspectives of several individuals who may be involved in the termination process: the supervisor, the exiting employee, the Human Resources representative, and a legal authority who has worked in termination cases. From the standpoint of each individual, the important components of termination are demonstrated.		
<b>1805</b>	<b>Let's Talk! Performance FEEDBACK</b>	<i>Coastal</i>	20 min
	This Leader's Guide, Let's Talk! Performance Feedback provides you with the tools to teach participants how to give and receive useful and effective feedback. Your participants will leave with an understanding of the importance of feedback in the larger context of business communication. Further, each employee who participates will learn how to maximize the effectiveness of any feedback of which they are a part, whether the other party is a peer, a supervisor, a person under the employee's supervision, or even a client or customer.		
<b>1806</b>	<b>Workplace Violence</b>	<i>Marcom</i>	10 min
	One out of every six violent crimes occurs in the workplace. And while workplace homicides grab the headlines... (homicide is the second leading cause of death on the job and the number one killer of women in the workplace)... other forms of workplace violence happen much more frequently. No organization, regardless of size or type of business, is immune to workplace violence. "Workplace Violence" show employees how to recognize the warning signs of possible violent behavior, as well as how to avoid or defuse potentially dangerous situations. Topics covered in these products include: <i>Underlying causes of workplace violence.</i> <i>The warning signs</i> <i>Aggressive behavior</i> <i>Threats and verbal abuse</i> <i>Sexual harassment</i> <i>Physical assault</i> <i>Armed assailants</i> <i>Fostering a positive workplace environment</i>		
<b>1807</b>	<b>Workplace Violence: Assessment and Prevention</b>	<i>CIRSA</i>	34 min
	This DVD teaches public entity employees how to minimize the potential for violent situations in the workplace. It covers critical issues, including: the most common risk exposures in government work environments; profiles of violent personalities; techniques for controlling violence; and the development of a threat and violence management program. Through interviews with municipal employees and expert testimony given by an attorney and a psychologist, the DVD clearly emphasizes the importance of raising awareness among employees and following specific action plans.		
<b>1808</b>	<b>Conflict Resolution in Industrial Facilities</b>	<i>Marcom</i>	10 min

	<p>Conflict in the workplace is inevitable. Anytime two or more people come together, they will eventually disagree about something. While some conflict can be healthy, it is often an indication that there is something wrong. Conflict is frequently a "call to action"... a problem crying out for a solution. The good news about conflict is that it is usually based on "caring". The more someone defends their point of view in an argument, the more they care. But if conflict is allowed to fester and grow without a resolution, it can lead to serious problems such as threats and even physical violence. The effectiveness of an entire organization can be harmed if conflict is allowed to escalate. "Conflict Resolution in Industrial Facilities" discuss the techniques and strategies that can be used to limit the damage and disruption conflict can cause in the workplace. They show employees that when difficult situations are dealt with in a calm and unemotional way, compromise and collaboration are possible... and a lot can be gained from resolving a conflict. Topics covered in these products include:</p> <p><i>The consequences of conflict and how it can disrupt the workplace</i>  <i>How resolving workplace conflict is an integral part of everyone's job.</i>  <i>The common causes of workplace conflict and how to recognize them</i>  <i>Diffusing disagreements before they get out of hand</i>  <i>The damage that escalating conflict and violence can do to an organization</i>  <i>How collaboration can be a valuable tool in resolving conflicts</i>  <i>How to apply proven conflict resolution techniques and strategies</i></p>		
<b>1809</b>	<b>Conflict Resolution in the Office</b>	<i>Marcom</i>	10 min

<b>1815</b>	<b>Principal's Recognition of Hazards on a School Campus (CD)</b>	<i>Gallagher</i>	15 min
	Schools: How to safely break up student fights.		
<b>1816</b>	<b>Breaking Up Student Fights (CD)</b>	<i>Gallagher</i>	15 min
	Schools: Hazards on a school campus can be very serious. This CD explains how to recognize them.		
<b>1817</b>	<b>Volunteers: Managing The Risks of Volunteers</b>	<i>CIRSA</i>	15 min
	They coach, assist in community clean-ups and even help fight fires: but volunteers are often exposed to risks of injury, and your public entity to resulting risks of liability. This DVD will help you identify, plan and address the various risks of your volunteer program, while providing useful tips such as appointing a volunteer coordinator, establishing a volunteer management program, evaluating potential safety hazards and reviewing insurance coverages.		
<b>1818</b>	<b>Safety Awareness for Seasonal Employees</b>	<i>CIRSA</i>	23 min
	Covering a variety of safety hazards and safe practices applicable to seasonal and volunteer employees who work in parks and recreation, public works, maintenance and other municipal departments.		
<b>1819</b>	<b>ADA: Willing and Able</b>	<i>Safety Shorts</i>	5 min
	The Americans with Disabilities Act is bringing down walls of prejudice for Americans with differing abilities. See how the ADA affects you and 43 million other lives. Key Training Points: introduction to ADA - what to expect - types of disabilities.		
<b>1820</b>	<b>ADA: Working Together</b>	<i>Safety Shorts</i>	5 min
	The passage of the ADA may mean a more diversified workforce. Tips on how the able and disabled can work together are offered. Key Training Points: emergency planning - housekeeping - safety - buddy systems.		
<b>Drug and Alcohol Awareness 1900-1999</b>			
<b>1900</b>	<b>Dealing with Drugs &amp; Alcohol Abuse for Employees</b>	<i>HI 5</i>	10 min

	Many people don't always recognize the danger of drinking alcohol and using drugs. They start out thinking that they are in complete control, only to find themselves ruled by the substances that they use. This program discusses the major effects that drugs and alcohol can have on someone, both at home and at work. It also reviews what employees can do to help combat substance abuse in their workplaces.		
<b>1901</b>	<b>Dealings with Drug &amp; Alcohol Abuse - Managers</b>	<i>Marcom</i>	<b>18 min</b>
	Substance abuse is a huge, worldwide problem. In the United States alone there are over 50 million binge drinkers, 17 million illegal drug users and almost 15 million people who abuse prescription drugs. Most substance abusers have jobs. In fact, it is estimated that one out of every ten workers has a substance abuse problem. An employee with an alcohol or drug problem can decrease productivity, create a hostile work environment and damage a company's good name. Worst of all, the actions of a worker who is "under the influence" can completely undermine a company's efforts to keep people safe. The second in a two-part series on dealing with drug and alcohol abuse in the workplace, MARCOM's training products on "Dealing with Drug and Alcohol Abuse for Managers and Supervisors" discuss the various forms of substance abuse that are typically found in the workplace, how managers and supervisors can detect substance abuse problems, and what they should and shouldn't do if they discover a worker with a substance abuse problem. Topics covered in the products include: <i>How substance abuse can affect a workplace.</i> <i>Laws and regulations related to substance abuse.</i> <i>How to help create an alcohol and drug-free workplace.</i> <i>The role of education and testing in preventing substance abuse.</i> <i>Recognizing on-the-job substance abuse.</i> <i>How to handle substance abuse situations.</i>		
<b>1902</b>	<b>Drug Testing Awareness: Employees</b>	<i>Summit</i>	<b>14 min</b>
	Operating a high powered vehicle or equipment requires skill, decision making, and concentration. It has been proven that using alcohol and other drugs while operating a vehicle or equipment can negatively affect the operator's ability to perform these and other important tasks. <i>When testing needs to occur, including pre-employment, random, post-accident, reasonable suspicion, return to duty, and follow-up testing. Why testing for alcohol and other drugs is required for transportation workers; Importance of maintaining a drug and alcohol free workplace.</i>		
<b>1903</b>	<b>Drug Testing Awareness: Supervisors</b>	<i>Summit</i>	<b>13 min</b>
	Operating a high powered vehicle or equipment requires skill, decision making, and concentration. It has been proven that using alcohol and other drugs while operating a vehicle or equipment can negatively affect the operator's ability to perform these and other important tasks. This program, creates an awareness and respect for the negative consequences of using alcohol and other drugs on the job, reducing the hazards and associated consequences. Topics: <i>The supervisor's role in the drug testing process; Who needs to be tested; How to maintain an ongoing drug testing program.</i>		
<b>1904</b>	<b>Recognizing Drug &amp; Alcohol Abuse for Employees</b>	<i>Coastal</i>	<b>18 min</b>
	Do you know an alcoholic or an illegal drug addict? Chances are good that you do – chances are good that you work with one, too. This important program will help employees recognize alcoholism and drug abuse in the workplace and show them what to do about it when they do. Topics: <i>Physical appearance; Behavior and job performance; Enabling and denial ; Drug testing.</i>		
<b>1905</b>	<b>Recognizing Drug &amp; Alcohol Abuse for Managers</b>	<i>Coastal</i>	<b>18 min</b>
	Do you know an alcoholic or an illegal drug addict? Chances are good that you do – chances are good that you work with one, too. This important program will help supervisors and managers recognize alcoholism and drug abuse in the workplace and help reduce missed work days, increase productivity and protect worker health and safety. Topics: <i>Physical appearance; Behavior and job performance; Enabling and denial; Drug testing.</i>		
<b>Safety Coordinator 2000-2099</b>			
<b>2000</b>	<b>Safety Audits</b>	<i>Marcom</i>	<b>16 min</b>
	A single workplace accident can be devastating. Someone can be injured... or even killed. Property, equipment or materials can be damaged or destroyed. And work could come to a complete standstill. All of these things can happen if efforts are not made to protect employees. One way to accomplish this is to conduct a safety audit. This is an examination of the work area to make sure it is as safe as possible and all potential hazards are corrected or removed. "Safety Audits" inform employees about the goals of a safety audit, and how all workers should become involved. Topics covered in these products include: <i>A workplace analysis; Administrative controls; Engineering controls; Personal protective equipment; Emergency response procedures; Regulatory compliance, safety and health training; Accident investigation; A safety self-assessment.</i>		
<b>2001</b>	<b>Safety Coordinator Training</b>	<i>TMLRMP</i>	<b>23 min</b>

	The role of the "Safety Coordinator" is truly an important part of your organization's safety program. The DVD explains how the SC oversees the projects your organization is processing and makes sure all the proper safety requirements are in place so no one gets hurt. An excellent DVD explaining the role of the SC and one that each viewer can understand.		
<b>2002</b>	<b>Safety Orientation</b>	Marcom	14 min
	Thinking about safety should be as natural as thinking about other aspects of the job. Employees should be able to anticipate the possibility of accidents before they happen. Yet workplace accidents cause millions of people to suffer painful injuries every year, and cost business almost \$90 billion per year in medical bills, lost wages and lost production time. "Safety Orientation" address two of the most prominent safety issues confronting employers today... that of developing a good "safety attitude" in their employees, as well as providing "introductory safety training". Topics covered in the products include: <i>Developing "safety awareness"; Basics of accident prevention; Hazard evaluation; Safety housekeeping; Tool use and maintenance; Fire prevention and safety; Use of personal protective equipment and more.</i>		
<b>2003</b>	<b>Developing a Positive Safety Culture</b>	CIRSA	20 min
	This topic discusses the benefits of developing a positive safety culture including fewer accidents and injuries, lower insurance costs, improved morale, increased productivity, and better public relations. In addition, methods for establishing a strong culture by communicating with staff, supporting safety items in the budget, setting a good example, holding staff accountable, and implementing cost allocations systems are reviewed. Directed toward public entity managers and supervisors, this DVD would be beneficial for all employees.		
<b>2004</b>	<b>Office Safety</b>	Marcom	19 min
	Office employees frequently have the feeling that since they don't work "out on a plant floor" safety isn't important in their jobs. Yet accidents and injuries in the office account for thousands of hours of lost time, and millions of dollars in Workers' Compensation and medical costs. "Office Safety" show employees what hazards exist in office environments, and how important it is to use good safety practices as they go about their work. Topics covered in these products include: <i>Safety awareness; Safety housekeeping; Slips, trips &amp; falls; Electrical safety.</i>		
<b>2005</b>	<b>Workplace Security Awareness</b>	HI 5	8 min
	Once there was a time when we came to work with no question about our security, but times have changed. Now we aren't sure what dangers or threats we may encounter. The purpose of this DVD is to increase awareness of workplace security issues and help us to understand what we can do to remain secure on the job. Topics include preventing unauthorized access to the facility, maintaining control of visitors, reporting suspicious activity, employee identification and access, handling potentially harmful mail and packages and responding to threats of violence.		
<b>2007</b>	<b>The Pro-Active Safety Committee: A Team for Success</b>	Coastal	10 min
	"As an employee, I feel good about my company and do a better job if they give me a fair say in my own safety...", says an employee interviewed in this program. Use this to illustrate how to make safety committees work. Get your employees involved in staying safe on the job. * Setting up a safety committee * Organizational structure * Feedback and evaluation		
<b>2008</b>	<b>Red Flags Rule - Preventing Identity Theft for Compliance Managers</b>	Marcom	21 min
	This program, Red Flags Rule: Preventing Identity Theft for Compliance Managers is designed to help your organization become more familiar with the Red Flags Rule. By participating in this program, your employees will gain an understanding of the guidelines the Rule provides. In addition, your compliance managers will have an opportunity to begin developing a Theft Prevention Program for your organization. This Leader's Guide is designed to help you facilitate a training session on complying with the Red Flags Rule. It offers ideas on how to use this program in different ways, giving your organization flexibility to determine which training format is best for its specific needs.		
<b>2009</b>	<b>Accident Investigation #1</b>	Marcom	13 min

	"Accidents will happen". We have all heard that statement before. Unfortunately, sometimes it is true. In spite of our best efforts, things occasionally do go wrong. While many accidents seem to happen for obvious reasons, there may be things that contribute to an accident which are not always apparent. That is why it is vital to conduct a thorough Accident Investigation. "Accident Investigation" show employees steps that are taken in an accident investigation, and highlight how important it is for employees to fully cooperate with any inquiry. They also point out that while an investigation's focus is to determine the cause of an accident, the overall goal is to prevent similar accidents from happening again. The topics covered in the products include: <i>The goals of an accident investigation; Securing an accident scene; "Root-cause" analysis; The importance of investigative interviews; Assisting in an accident investigation; Reporting the "near misses"; The role of policies, equipment and training on accident prevention.</i>		
<b>2010</b>	<b>Accident Prevention: Don't Play The Blame Game</b>	<i>CIRSA</i>	25 min
	This DVD describes the key steps in the accident investigation process and emphasizes the prevention of future accidents. The importance of prompt reporting, fact gathering, root cause analysis, implementing corrective measures, and conducting follow-ups are covered. Near-miss accidents are also discussed.		
<b>2012</b>	<b>Think and Be Safe</b>	<i>HI 5</i>	8 min
	While working as a paramedic and firefighter, Martin Lesperance frequently hears injury victims say I just wasn't thinking or I didn't think. If not thinking causes their pain and suffering, then thinking about safety could prevent their pain, suffering and possibly even death. In this live presentation, Martin uses his on-the-job experiences to show that taking a moment to think and act on safety can make a huge difference in our lives and the lives of our families.		
<b>2013</b>	<b>Social Media Reduce The Risks</b>	<i>Coastal</i>	19 min
	Employees' posts on social networking sites can alienate customers, tarnish an organization's reputation, disclose confidential organization information, infringe privacy rights, and become evidence against an organization in court. Social Media: Reduce the Risk alerts organizations to these risks and provides relevant examples, including true-to-life stories. Explaining the need for a social media policy, this program stresses how a typical code of conduct is inadequate to regulate online activity and how blocking websites at work is no longer enough. The program elaborates on specific issues that a formal social media policy must address and provides a blueprint for such a policy, citing general guidelines on content, scope and application, management and enforcement, and consequences of violations. The program also advises that the policy should remind employees of the blurring line between personal affairs and business-related matters. In particular, it addresses how a policy relates to the First Amendment and ends by listing safe online practices.		
<b>Law Enforcement 2100-2199</b>			
<b>2100</b>	<b>Effective Law Enforcement Communication</b>	<i>CIRSA</i>	20 min
	The vast majority of law enforcement encounters are during non-violent, routine contacts. But at times, these contacts turns hostile because of an officer's poor communication skills resulting in possible injury, liability for the officer and police department, bad publicity, and other adverse consequences. The purpose of this topic is to show how law enforcement officers can reduce the probability of a routine contact turning hostile through the use of fundamental communication techniques and active listening skills. Key topics include using a positive tone of voice, keeping emotions under control, knowing your desired goal or outcome for each situation, reading the other person's facial expressions and body language, and other tips.		
<b>2101</b>	<b>Media: Dealing with the Media - SI (CD)</b>	<i>In Line of Duty</i>	38 min
	The Washington sniper case, a civil disturbance, an airline crash... all examples of how an unexpected event can bring a wave of media attention. Law enforcement is often the target of media attention during such times. This is an extensive examination of how to deal with the media.		
<b>2102</b>	<b>Media: Media Relations for Law Enforcement</b>	<i>Coastal</i>	20 min
	Dealing with crooks is a straightforward affair. But with reporters, it's a totally different ball game. They need to be handled with more tact, skill, diplomacy and subtlety. And for good reason, they can build or destroy your reputation. Discover arresting and hard-hitting tips that can assist you in your daily dealings with the press. • The PIO office • Meeting news directors, editors, and reporters • Effective press releases • Media interviews		
<b>2103</b>	<b>Interrogation/Field Interviews - V10P10 (CD)</b>	<i>In Line of Duty</i>	45 min
	Proper interrogations can be a key ingredient in solving crimes and providing evidence for a conviction. It can be a patrol officer interrogating a subject at the scene, or a detective back at headquarters. Cases are made and broken through the interrogation process.		
<b>2104</b>	<b>Interrogation Room Suicide/Officers Beaten - V10P4 (CD)</b>	<i>In Line of Duty</i>	36 min

	San Bernardino municipal and county officers made a mistake that could have been more deadly than it was when they arrested a man accused of shooting an officer. A gun hidden in the man's waistband was missed in a patdown. The man pulled the gun...		
<b>2105</b>	<b>Strip Search Training - V9P6 (CD)</b>	<i>In Line of Duty</i>	34 min
	One of the most distasteful, dangerous, yet absolutely necessary procedures some officers must undertake is the strip search. In this pioneering program, you'll learn how corrections officers at a major prison conduct proper, safe and thorough strip searches.		
<b>2106</b>	<b>Reducing Police Vehicle Collisions</b>	<i>MIIA</i>	32 min
	When you look at the fleet, are you ok with what you see, or are you not pleased at all? Do your officers take care of these expensive vehicles or are they just not concerned? It's not unusual to be less concerned with something that you don't have to pay for or go without if it's damaged. Bumps and bruises, such as scrapes and dents make the fleet look bad, and quite often contribute to the lack of concern for the appearance of the vehicle. Most of us are careful to avoid these things with our own cars and trucks, especially when they are new. Police vehicle accident reports show that damaged bumpers and torn off side view mirrors have almost become commonplace. When this happens, these items need to be replaced before the vehicle can go back in service. That equals down time and repair costs.		
<b>2107</b>	<b>Knoxville Officer Hit By Car - V9P7 (CD)</b>	<i>In Line of Duty</i>	41 min
	A Knoxville (TN) officer is winding up special patrol at a busy area where local university students party well into the morning hours before the Saturday football game. She is struck by a car driven by a heavily intoxicated woman. Miraculously, the officer survived.		
<b>2108</b>	<b>Officer Safety Traffic Stops &amp; Roadway Details</b>	<i>MIIA</i>	10 min
	Officer Safety is a major concern attention to detail and the right preparation is key. As always you are the deciding factor when the rubber meets the road. Your safety is your responsibility. There will always be factors and circumstances beyond your control but your attentiveness and preparation will go a long way to keep you safe.		
<b>2109</b>	<b>Reducing Use of Excessive Force Liability</b>	<i>MIIA</i>	112 min
	Law enforcement is an incredibly difficult job requiring the correct application of complex principles and procedures in a variety of situations with little or no time to make decisions. This is often done while facing angry, distraught and sometimes violent persons. The stakes can be very high and a wrong decision can be catastrophic. As our world becomes more complex and dangerous, decisions become harder and ethical dilemmas more prevalent. Increased media scrutiny and rising expectations from the public leave officers little room for error. As the profession has evolved to meet these rapidly unfolding changes, the responses to ethical issues involved with the exercise of professional discretion must evolve as well.		
<b>2110</b>	<b>TASER - Training and Information, Version 17 - 2010</b>	<i>TASER Intn'l</i>	10 min
	TASER International's products protect life, providing advanced Electronic Control Devices (ECDs) for use in the law enforcement, medical, military, correctional, professional security, and personal protection markets. TASER devices use proprietary technology to incapacitate dangerous, combative, or high-risk subjects who pose a risk to law enforcement/correctional officers, innocent citizens, or themselves in a manner that is generally recognized as a safer alternative to other uses of force. TASER technology protects life, and the use of TASER devices dramatically reduces injury rates for law enforcement officers and suspects.		
<b>2111</b>	<b>TASER - What Every Law Enforcement Agency Should Know - SI (CD)</b>	<i>In Line of Duty</i>	45 min
	The TASER has rapidly become one of the most important less lethal tools ever for law enforcement officers. You'll learn the answers to the most frequently asked TASER questions.		
<b>2112</b>	<b>K-9: Encouraging Officer Safety, Working with K-9s (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2113</b>	<b>K-9: Perfect Partners: Keeping Criminals on a Short Leash (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2114</b>	<b>Racial Profiling - SI (CD)</b>	<i>In Line of Duty</i>	15 min

	If there is a hotter issue in law enforcement today, we don't know about it. Making stops on the basis of the race or ethnicity of those in a car rather than on grounds of reasonable suspicion is wrong and a violation of rights.		
<b>2115</b>	<b>Hate Crimes - V8P10 (CD)</b>	<i>In Line of Duty</i>	32 min
	Virtually all law enforcement agencies have dealt with them: hate crimes. Whether they're ethnic, gangs, sexual preference, economic or without category, police officers need to learn how to best approach and deal with this problem.		
<b>2116</b>	<b>Drugs: Gangs - An American Evolution, Part 1 (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2117</b>	<b>Drugs: Gangs - An American Evolution, Part 2 (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2118</b>	<b>Facing Disaster - Part 1 - V9P8 (CD)</b>	<i>In Line of Duty</i>	47 min
	Any community can face disaster in the form of a vicious storm, an accidental calamity, and now potentially, a terrorist attack. This first of a two part series deals with the havoc wrought by catastrophe.		
<b>2119</b>	<b>Facing Disaster - Part 2 - V9P9 (CD)</b>	<i>In Line of Duty</i>	44 min
	This second of the two part series discusses preplanning and response to such unexpected disasters as a terror attack, possibly involving weapons of mass destruction, or a catastrophic accident. Such events are possible anywhere, and law enforcement needs to be prepared.		
<b>2120</b>	<b>Courthouse Security - V10P8 (CD)</b>	<i>In Line of Duty</i>	51 min
	The deadly Fulton County Courthouse triple murder in Atlanta has brought attention to the courthouse security issue. This program focuses on the law enforcement officer who is involved in the aspect of courthouse/courtroom security needs.		
<b>2121</b>	<b>Crowd Control - V5P11 (CD)</b>	<i>In Line of Duty</i>	42 min
	After years of dealing with unruly, often violent crowds during various Oktoberfest events, the La Crosse, Wisconsin Police Department has developed an approach which has become a national, even international, model for any law enforcement agency faced with crowd control.		
<b>2122</b>	<b>Low Light Shooting/Snipers - V5P7 (CD)</b>	<i>In Line of Duty</i>	37 min
	With the assistance of the Fairfax County (VA) Police Department and via their new state-of-the-art training facilities and shooting range, we'll provide the first-ever training coverage of this most crucial aspect of police training.		
<b>2123</b>	<b>Knives Can Kill You ... FAST</b>	<i>In Line of Duty</i>	41 min
	This is an extremely important training program for your library. In it, one of the leading law enforcement experts in the world, teaches and trains you to survive a knife attack/assault. The program provides step-by-step training.		
<b>2124</b>	<b>Groundfighting for Smaller Officers - V10P12 (CD)</b>	<i>In Line of Duty</i>	32 min
	It happens every day. Smaller officers, many of them female, are confronted by much larger subjects. It doesn't have to be a disadvantage and won't be after viewing this very instructive program.		
<b>2125</b>	<b>Drugs: MS-13 Terrorizing America (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2126</b>	<b>Terror and Terrorists - What Every Cop Needs to Know - SI (CD)</b>	<i>In Line of Duty</i>	47 min
	This is a must program for American law enforcement. It is complete with vital information on dealing with the new terrorist threat in this county, including what to look for and what to do when you find it.		
<b>2127</b>	<b>Drugs: Encouraging Officer Safety, Taking the Risk Out of a Risky Business</b>	<i>FLETC-Homeland Security</i>	60 min

	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2128</b>	<b>Drugs: Consensual Encounters: Knowing Your Legal Limits (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2129</b>	<b>Meth is Death</b>	<i>District Attorney Bill Cox</i>	10 min
	Methamphetamine, or meth, is a highly addictive synthetic chemical that acts as a stimulant. It is snorted, injected, smoked, or swallowed. Most of the methamphetamine abused in this country comes from foreign or domestic superlabs, although it can also be made in small, illegal laboratories, where its production endangers the people in the labs, their neighbors, and the environment. Creating a sense of energy, meth can push the body faster and further than it's safe to go. It increases the heart rate, blood pressure, and the risk of stroke. Speed, meth, crystal meth, chalk, ice, crystal, chalk, crank, tweak, uppers, black beauties, glass, biker's coffee, methlies quick, poor man's cocaine, chicken feed, shabu, crystal meth, stove top, trash, co-fast, yaba, yellow bam. <b>A VERY POWERFUL TOPIC WITH HIGH IMPACT</b>		
<b>2130</b>	<b>Drugs: Drugs in Cyberspace (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2131</b>	<b>Drugs: Computers &amp; The Drug Trade (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2132</b>	<b>Drugs: Prescription Patrol - Stopping Drug Diversion (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2133</b>	<b>Drugs: Drug Science Investigation (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2134</b>	<b>Drugs: Do Not Enter - The Dangers of Clan Labs (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2135</b>	<b>Drugs: Encouraging Officer Safety, Recognizing &amp; Identifying Drugs (CD)</b>	<i>FLETC-Homeland Security</i>	60 min
	A production of The Federal Law Enforcement Training Center, The Multijurisdictional Counterdrug Task Force Training and Homeland Security. <b><i>This program might show graphic scenes.</i></b>		
<b>2136</b>	<b>Iron Will to Succeed, Officer John Angle - V11P3 (CD)</b>	<i>In Line of Duty</i>	32 min
	This is a dramatic event shows officer resourcefulness and courage during a highly dramatic and harrowing incident.		
<b>2137</b>	<b>Hanahan SC Officer Run Over - V10P7 (CD)</b>	<i>In Line of Duty</i>	45 min
	Remarkable DVD of the confrontation. At the end of the chase, with the driver of a stolen vehicle cornered, the driver steps on the gas as a veteran officer approaches. The officer is struck, but comes up firing. More than a dozen rounds later...		
<b>2138</b>	<b>Alert MO Cop Naps Killers - V10P9 (CD)</b>	<i>In Line of Duty</i>	45 min
	A young man and his sister were en-route to Las Vegas after killing their mother and grandparents in Indianapolis. Traveling over the speed limit in Missouri, they were stopped by a deputy. His alert questioning produced indicator after indicator that something was not right.		
<b>2139</b>	<b>Shreveport Cell Phone Shooting - V10P11 (CD)</b>	<i>In Line of Duty</i>	32 min
	Months and months after this incident, it is still generating conversation. Imagine yourself chasing a suspect who turns and points what appears to be a gun at you. You fire. The "gun" turns out to be a cell phone. You can imagine the outcry?		

<b>2140</b>	<b>Michelle Jeter Beating - V11P1 (CD)</b>	<i>In Line of Duty</i>	35 min
	TX female Officer Michelle Jeter nearly beaten to death during traffic stop. First ever in-depth training interview from Officer Jeter.		
<b>2141</b>	<b>Utah Cruiser Stolen - V11P2 (CD)</b>	<i>In Line of Duty</i>	28 min
	Utah officer's cruiser taken, when arrested female somehow gets behind the wheel, drives away.		
<b>2142</b>	<b>Montana Chase/Shootout - V10P1 (CD)</b>	<i>In Line of Duty</i>	56 min
	This has been called a breathtaking chase and shootout and it's all on tape. Montana law enforcement officers from several jurisdictions pursued a suspect in a bar shooting in which one person was killed and seven others wounded.		
<b>2143</b>	<b>Trooper Saved By Passenger Side Approach - V10P3 (CD)</b>	<i>In Line of Duty</i>	38 min
	Law enforcement officers all over the country are changing their approach (literally and figuratively) as a result of this DVD. The whys and wherefores of the passenger-side approach with dramatic evidence of how it saved one officer's life		
<b>2144</b>	<b>St. Petersburg Riots/Crown Control - V2P2 (CD)</b>	<i>In Line of Duty</i>	39 min
	St. Petersburg, Florida police provide detailed analysis of tactics, strategy, and response in the only training documentary available of rioting after a white officer shot an African- American motorist.		
<b>2145</b>	<b>Kehoe Brother's Shoot-Out - V4P8 (CD)</b>	<i>In Line of Duty</i>	47 min
	This DVD details the dramatic shoot-out in Ohio between law enforcement and the Kehoe brothers, known paramilitary extremists. This will include in-depth training interviews with both officers involved and will provide the first-ever crucial lessons learned.		
<b>2146</b>	<b>Incident at White Castle - SI (CD)</b>	<i>In Line of Duty</i>	48 min
	This DVD documents in complete detail one of the most controversial incidents in the history of the Cincinnati Police Department. The incident centers on the attempted arrest of a 350 pound man high on drugs. He resisted arrest and fought with officers.		
<b>2147</b>	<b>Incident at White Castle/Updated - V10P6 (CD)</b>	<i>In Line of Duty</i>	54 min
	This is an updated version on how officers can do everything right and things can still go wrong. In this case, a druggie high on a variety of drugs resists officers. After a long struggle, he is subdued, but moments later...		
<b>Personal Protective Equipment (PPE) 2200-2299</b>			
<b>2200</b>	<b>Personal Protective Equipment</b>	<i>Marcom</i>	27 min
	"On-the-job" injuries affect all types of people doing all types of work. Each year over 570,000 workers are injured... at a cost to employers of over \$100 billion annually. Government surveys show that the most common cause of workplace injuries today is due to employees not using proper PPE. Virtually everyone will experience one or more "on the job" injuries during their working life. In most cases appropriate equipment is readily available, yet employees do not recognize the need for this equipment, or take the time to use it. "Personal Protective Equipment" have been specifically created to assist facilities in complying with OSHA's Standard on Personal Protective Equipment. Topics covered in these products include: Review of OSHA's Personal Protective Equipment (PPE) Standard; PPE for eye and face hazards; PPE for respiratory hazards; PPE for head hazards; PPE for foot hazards; PPE for electrical hazards; PPE for hand and finger hazards.		
<b>2201</b>	<b>Personal Protective Equipment: Reality in the Public Sector</b>	<i>Coastal/D upont</i>	19 min
	Trends may come and go, but safety will not. All the time, every time, public sector employees must wear their PPE. They face a lot of risks and must be prepared. Otherwise, the results can only be tragic. Give them a first-hand look at the consequences of not wearing PPE, through a worker's recounting of his accident. Stress the importance of using protective equipment. It covers: <ul style="list-style-type: none"> <li>• Wearing the right PPE for the job</li> <li>• The importance of PPE</li> <li>• Employer's and employee's responsibility</li> <li>• Care and maintenance</li> <li>• Different types of PPE.</li> </ul>		
<b>2202</b>	<b>Eye Safety</b>	<i>Marcom</i>	15 min

	Most employees take "healthy eyes" for granted. But our eyes are really very fragile, and statistics show that eye injuries occur frequently in the workplace. "Eye Safety" show how many eye problems are caused by not paying attention to the work employees are doing, or not wearing the appropriate protective equipment. They remind employees that eye injuries can easily happen to them and show them how to prevent these injuries. Topics covered in these products include: Physiology of the eye and how it functions; Common eye injuries and how they are caused; Short and long-term effects of eye injuries; Eye care and safety practices; Selecting and using appropriate personal protective equipment.		
<b>2203</b>	<b>Safety Showers &amp; Eye Washes</b>	<i>Marcom</i>	12 min
	No matter how many precautions employees take, accidents sometimes happen. In these situations quick action is essential, and if the incident involves a hazardous material, using a safety shower or eyewash can be extremely important. "Safety Showers and Eye Washes" review for employees situations where safety showers and eye washes should be used, as well as how to properly use them. Topics covered in these products include: Types of showers and eye washes; How to operate showers and eye washes correctly; Chemical splashes; Appropriate shower and eye wash techniques; Helping an accident victim use a shower/eye wash; First aid; Maintenance and testing of showers and eye washes.		
<b>2204</b>	<b>Hearing Conservation &amp; Safety</b>	<i>Marcom</i>	17 min
	Everywhere we go we encounter noise. And if this noise is loud enough, or has certain characteristics, it can cause damage to our hearing... often permanently. Over 15 million Americans have a measurable hearing loss, most often caused by "on-the-job" injuries. Yet many employees don't realize that not only can hearing problems affect their work, they can alter their personal lives dramatically as well. "Hearing Conservation and Safety" have been specifically created to assist facilities in complying with OSHA's revised Hearing Conservation Standard. Topics covered in these products: How our ears "work"; Types of hearing damage/loss; Common causes of hearing damage/loss; Potential effects of hearing damage; Noise avoidance and hearing safety practices; Selection and use of personal protective equipment.		
<b>2205</b>	<b>Respiratory Protection &amp; Safety</b>	<i>Marcom</i>	21 min
	One of the problems with many respiratory hazards (such as fumes or gases) is that employees cannot easily "see" them. Even more visible hazards, such as dusts, are often accepted as part of a "normal" work environment. As a result, many respiratory problems only become clearly evident well after the original exposure. Yet once they occur, most respiratory problems are "chronic" and long lasting. To further protect employees from these hazards, both OSHA and NIOSH have issued changes to their respiratory protection requirements. "Respiratory Protection and Safety" have been specifically created to assist facilities in complying with OSHA's Respiratory Standard. Topics covered in these products include: How the respiratory system works; Common types and causes of respiratory hazards; Potential effects of respiratory hazards; Good respiratory safety practices; Respiratory safety equipment; OSHA's Assigned Protection Factors for respirators; Fit testing protocols; Cleaning/disinfecting procedures.		
<b>2206</b>	<b>Respiratory Safety: General Awareness</b>	<i>Summit</i>	15 min
	This respiratory training program is unlike any other in the market, incorporating real testimonials and interviews from actual people in the field, including EH&S Directors, Fire Department personnel, and OSHA experts. Your workers will come away with a greater understanding of the importance of respirators and a first-hand respect for the hazards. This program establishes a solid and detailed foundation of knowledge about the human respiratory system and how to best protect it on the job.		
<b>2207</b>	<b>Respirator Safety: Public Knowledge</b>	<i>Coastal</i>	21 min
	Respirators can be hot, bulky, heavy and just an overall hassle. But they can also be the difference between life and death. Give your workers a straight-forward look at why they need respirators, how to properly fit and maintain them and when to use certain types.		
<b>2208</b>	<b>Respirator Safety: A Sure Fit</b>	<i>Coastal</i>	10 min
	Respirators are critical equipment on many jobs but if the fit isn't right, they may not help at all. Fit-testing is required annually and before a respirator is used on a job or whenever a different face piece is used. Be sure your workers know how to fit test their apparatus properly. This safety training program illustrates the different types of respirators, what they are used for and how to fit them correctly to maximize their protective qualities. <ul style="list-style-type: none"> <li>* Oxygen deficient and contaminated atmospheres</li> <li>* Supplied air respirators</li> <li>* Air purifying respirators</li> <li>* Respirator selection</li> <li>* Fit test and fit check</li> </ul>		

<b>2209</b>	<b>Machine Guard Safety</b>	<i>Marcom</i>	19 min
	Machinery comes in many sizes and shapes, and it can present many different types of hazards. Each year thousands of employees across the country are injured by the machines they are most familiar with... and which they believe are safe. The risk of accidents from powered machinery is so great OSHA estimates that lack of machine guarding is the second most frequent safety violation in industry today. "Machine Guard Safety" are designed to help employees understand the dangers of working with machinery... and how those risks can be minimized by proper installation and use of safety guards and devices. Topics covered in these products include: Basic machine operations; Fixed guards; Adjustable and self-adjusting guards; Interlock devices; Drive train and perimeter guards; "Drop probe" devices; Restrain and pullback devices; Adjustment, inspection and maintenance of safety guards.		
<b>2210</b>	<b>Hand, Wrist &amp; Finger Safety</b>	<i>Marcom</i>	12 min
	Each year over 500,000 people injure their hands, wrists or fingers. Nearly one out of four "on-the-job" accidents involve these parts of the body. To help reduce these problems it is important for employees to learn about the most common hazards to these areas of the body. "Hand, Wrist and Finger Safety" review hand, wrist and finger hazards and help employees to take the steps necessary to avoid them. Topics covered in these products include: Physiology of the hand, wrist and fingers; Identification of common hazards; Proper work procedures; Tool use and maintenance; Using personal protective equipment; Injuries and first aid.		
<b>2211</b>	<b>Foot Protection</b>	<i>Summit</i>	15 min
	Considering a foot injury can cost an organization over \$10,000 in lost time and worker's compensation costs, properly training workers reduces accidents and drives down company expenses. This proactive Foot Protection training program demonstrates to your workers that safety starts from the ground up. Filmed on-site using real workers, Foot Protection presents multiple work environments where your workforce may encounter foot hazards. This program is crucial for workers whose jobs have potential hazards to the feet such as construction, manufacturing, those who work around chemicals, electricity and others. Train workers with Foot Protection and take a stand against foot injuries.		
<b>2212</b>	<b>Falls: Fall Protection</b>	<i>Marcom</i>	11 min
	Falls are the second leading cause of death each year in the United States (after traffic accidents)! Over 10,000 people are killed every year as a result of falls...and 200,000 to 300,000 people are disabled. Eight-five percent of all falls that occur on the job result in "lost work time". "Fall Protection" provide the information employees need to work safely when they are "off the ground", and assist in satisfying the major training requirements in the OSHA Standard on Fall Protection. Topics covered in these products include: The seriousness of fall hazards; Types of environments where falls may occur; The "Fall Protection Plan"; Concentrating and keeping a clear head; The importance of housekeeping in preventing falls; Measures that can be taken to protect against falls; Protective equipment.		
<b>Maintenance Operations and Construction 2300-2399</b>			
<b>2300</b>	<b>Maintenance Safety - High Impact</b>	<i>HI 5</i>	9 min
	Maintenance personnel - they are the masters of machines and the essential oil that makes things run smoothly. We sometimes take the work these craftsmen do for granted. But every day these people face a variety of hazards that have the potential to maim and kill. It is imperative that these employees follow safe work procedures to prevent workplace accidents. This DVD uses several work-related accident reenactments and testimony from experienced industrial professionals to demonstrate the importance of maintenance safety.		
<b>2301</b>	<b>Good Housekeeping Is Good Safety</b>		
	Clutter and disorder in the workplace contribute to falls, fires, cuts, and other kinds of accidents and injuries. Eliminate hazards and improve productivity by keeping your workplace clean and orderly.		
<b>2302</b>	<b>Housekeeping Safety &amp; Accident Prevention</b>	<i>Marcom</i>	13 min
	Good safety housekeeping can significantly reduce accidents and injuries in any type of work environment. By developing good safety habits, and by being aware of their work environment and any hazards associated with it, employees can help to create a much safer workplace. "Safety Housekeeping and Accident Prevention" demonstrate to employees how to prevent workplace accidents by paying attention to safety housekeeping considerations. Topics covered in these products include: <i>Safety awareness; Handling rubbish and excess materials; Keeping aisles and stairways clean; Using ropes and electric cords; Dealing with hazardous chemicals; Tool maintenance; Proper tool storage.</i>		
<b>2303</b>	<b>Carbon Monoxide: The Invisible Killer</b>	<i>Safety Shorts</i>	5 min
	Carbon monoxide is an invisible killer! Learn to recognize its symptoms and learn first aid procedures to help anyone overcome.		

<b>2304</b>	<b>Chlorine</b>	<i>Safety Shorts</i>	<b>5 min</b>
	Chlorine is highly irritating to the skin and respiratory organs. Accident scenarios at home and work warn of hazards and illustrate importance of safe handling and use.		
<b>2305</b>	<b>Ammonia Safety</b>	<i>Summit</i>	<b>20 min</b>
	Ammonia is a common substance found in many industries, including food, petroleum, and agriculture. In fact, in a recent year, ammonia was the third most common produced chemical in the United States. Ammonia can have negative consequences on your workers health, and, if not handled properly, can cause an explosion or fire at your site. Don't let a common chemical become an injury or accident source at your site. Teach your workers proper handling, hazard awareness and best safety practices with this effective and informative Ammonia Safety training program.		
<b>2306</b>	<b>Lead Safety: Keep The Lead Out</b>	<i>Summit</i>	<b>10 min</b>
	Overexposure to lead is one of the most common over exposures in industry and is a leading cause of workplace illness. This New York Festival award winner is ideal for construction, chemical, manufacturing, petroleum, maintenance, and utility employees exposed to lead on the job. Filmed in multiple industrial and construction locations, this DVD motivates workers to follow best safety practices that reduce the concentration of airborne particles and eliminate the potential for overexposure.		
<b>2307</b>	<b>Lead: Working with Lead Exposures: Construction/General Industry</b>	<i>Marcom</i>	<b>20 min</b>
	Created specifically for OSHAs Lead Standards (both the General Industrial Standard as well as the Interim Final Rule for Construction), these products are designed for employees in general industry and construction environments where lead and lead-based materials are found. "OSHA Lead Standards" address the major areas of employee training required by the regulations. Because of the widespread historical use of lead-based paints, as well as other materials containing lead, these products are useful to a number of different groups including building/construction companies, manufacturers, recyclers and many others. Topics covered in these products include: Contents of the standards; "Measurement" concepts; Permissible exposure limits (PEL); Time weighted average (TWA); Action levels; Exposure assessment and monitoring; Methods of compliance; Hygiene and housekeeping; Medical surveillance.		
<b>2308</b>	<b>Asbestos Awareness in the Workplace</b>	<i>HI 5</i>	<b>10 min</b>
	Known as the "silent killer", asbestos has no order when it is present in the air and no immediate side effects to employees who are exposed to it. After long-term exposure however, asbestos can cause lung disease, cancer and even death. This DVD provides the viewer with a general understanding of the properties of asbestos, procedures for avoiding and protecting against exposure and methods for disposing of asbestos. Topics include: Materials that may contain Asbestos; Limiting exposure to Asbestos; Air monitoring and decontamination.		
<b>2309</b>	<b>Compressed Gas Cylinders</b>	<i>Marcom</i>	<b>10 min</b>
	In today's work environments, compressed gas is used for many things... refrigeration... welding... heating... and a number of other functions. Compressed gas can be dangerous, and employees who work with them need to know how to handle them properly. "Compressed Gas Cylinders" provide the information employees need to handle and transport these potentially volatile storage containers. Topics covered in these products include: Associated hazards; Moving and transporting cylinders safely; Positioning cylinders properly; Proper "hook-up" procedures; Safe storage practices; Storage "incompatibilities".		
<b>2310</b>	<b>Just Horsing Around</b>	<i>Marcom</i>	<b>13 min</b>
	Joking around on the job is no laughing matter. This DVD shows what can happen if a job is not taken seriously.		
<b>2311</b>	<b>Power &amp; Hand Tool Safety</b>	<i>Marcom</i>	<b>17 min</b>
	Hand and power tools are used every day in many types of business. They make our work easier and allow us to be more efficient. However, we often fail to see the hazards these tools present. "Hand and Power Tool Safety" show how accidents can be significantly reduced by applying good general safety rules, and review what hazards are associated with the specific types of tools employees use. Topics covered in these products include: Choosing tools that fit you and the job; Protecting yourself and others from tool-related hazards; Personal protective equipment; The special hazards associated with electric power tools; Tool care and maintenance, and more.		
<b>2312</b>	<b>Power Tool Safety - High Impact</b>	<i>HI 5</i>	<b>8 min</b>

	We use portable power tools in a variety of tasks each day: repairing machinery, installing new equipment and performing routine maintenance. In fact, we rely on such tools as drills, saws, sanders and grinders so much that we have a tendency to become too comfortable with them. Our complacency often leads us to disregard safe work practices. When this happens, we leave ourselves open to burns, cuts, electrocution and other injuries. This DVD features two tragic accident reenactments to remind power tool users about key safety issues and to make them aware of the painful injuries that result from unsafe use. Topics include inspecting tools before use, selecting the proper tool for the job and being trained and authorized to use tools.		
<b>2313</b>	<b>Powered Hand Tool Safety: Handle With Care</b>	<i>Coastal</i>	20 min
	Safety is literally in your workers' hands. They have to be expert handlers of powered hand tools, and they must know these devices inside and out. Hand over this safety program to them, which thoroughly explains PPE, pre-use inspection, predicting dangers and housekeeping.		
<b>2314</b>	<b>Ladder Safety</b>	<i>Marcom</i>	12 min
	Ladders are one of the most commonly used pieces of equipment in almost any work environment. From common stepladders to sophisticated extension ladders, they can be found almost everywhere.  "Ladder Safety" show that because they are so common, many employees take ladders for granted, and don't take the appropriate precautions when using ladders. Topics covered in these products include:  Ladder selection. Inspection and maintenance. Proper "set-up". Overhead hazards. Climbing and working safely. Accidents and first aid. and more.		
<b>2315</b>	<b>The Case of the Ladder Bandit (Humorous)</b>	<i>HI 5</i>	10 Min
	The Mayberry Deputy is called to the plant to solve a rash of ladder-related injuries in this entertaining video. To catch the ladder bandit responsible for these mishaps, the deputy and an accomplice go undercover during their investigation. As the case unfolds, the plant manager begins to doubt the deputy's investigative abilities as he and his accomplice repeatedly blow their cover and have accidents when using ladders. The plant manager then holds a meeting to announce that the case has been solved: the ladder bandit is actually anyone who chooses to take chances or shortcuts when using ladders even though he or she knows the appropriate procedures that should be followed. The deputy is given credit for proving that the employees could recognize unsafe use of ladders when they saw others do it, but failed to recognize it in themselves. Topics include using the right ladder for the job, the belt buckle rule, maintaining three-point contact, dangers of using chairs, pallets or other items as ladders and safety precautions for step ladders, straight and extension ladder.		
<b>2316</b>	<b>Scaffolding: Suspended Scaffolding Safety</b>	<i>HI 5</i>	10 min
	Suspended scaffolds are unique tools that allow us to work in high, hard-to-reach areas. Safety is a crucial issue when working above ground, as an estimated 10,000 scaffold-related injuries occur each year. To address this issue, OSHA has developed regulations specifically for workers who erect and work on scaffolds. These regulations require employers to train workers on the rules and regulations for suspended scaffolds before they use them. This DVD focuses on suspended scaffolds and the safety and training regulations developed by OSHA for working with them. Topics include preparation for erecting scaffolds, installing ropes and suspension devices, preparing hoists for operation, selection and use of scaffold platforms, inspection of scaffolding equipment, preventing falls and protection against falling objects.		
<b>2317</b>	<b>Scaffolding: Supported Scaffolding Safety</b>	<i>HI 5</i>	10 min

	Even though ladders can be used to reach work that is high off the ground, only scaffolds offer large enough work areas to hold workers, supplies and equipment. While scaffolds make our jobs easier, we must know how to use them correctly to prevent serious accidents. In fact, an estimated 10,000 scaffold-related accidents occur each year. Employees who use scaffolding can prevent these accidents by using their required training and following safe work practices. This DVD focuses on supported scaffolds and the safety and training regulations developed by OSHA for working with them. Topics include designated access areas, protection against falling objects, use of fall protection, scaffold construction procedures, installing scaffold platforms and overhead scaffold hazards.		
<b>2318</b>	<b>Scaffolding: Stationary Scaffolds in Construction</b>	<i>Coastal</i>	15 min
	This vital program discusses how to work safely on and around stationary scaffolds to avoid falls. • Hazards • Safe work practices		
<b>2319</b>	<b>Forklift/Powered Industrial Truck Safety</b>	<i>Marcom</i>	10 min
	Forklifts and other powered industrial trucks are indispensable in many companies. They are rugged, powerful tools that save time, money and effort. But the same qualities that make them so helpful can also make them dangerous. Using powered industrial trucks results in over 100 fatalities and over 35,000 serious injuries each year. When used incorrectly, or if forklifts and other trucks are not properly maintained, they can do significant damage. "Forklift/Powered Industrial Truck Safety" have been specifically created to assist facilities in complying with OSHA's Powered Industrial Truck Standard. Topics covered in these products include: OSHA's certification process; The seven classes of industrial trucks; Equipment checkout and maintenance; A forklift's stability triangle; Safe operating procedures; Lifting and lowering loads; Trucks and loading docks.		
<b>2320</b>	<b>FORKLIFTS: Inspect, Recharge, and Refuel</b>	<i>Coastal</i>	15 min
	<p>Product Description:</p> <p>A forklift can be a dangerous piece of equipment. Performing the job safely not only requires lifting, lowering and traveling safely, but also inspecting your forklift before every shift and knowing the correct procedures for refueling and recharging.</p> <p>Proper training can help prevent forklift injuries and deaths and as you know, employees are not authorized to operate a forklift unless they are trained. Forklifts: Inspect, Recharge, Refuel goes beyond operational forklift training to give employees an in-depth look at the importance of and steps for performing a pre-operational inspection. It also outlines the hazards associated with refueling gas, diesel or LPG engines and shows how to charge and change a battery.</p> <p>Learning objectives:</p> <p>Pre-operation Inspections</p> <ul style="list-style-type: none"> <li>• How to perform an inspection before the engine is running</li> <li>• Proper inspection techniques when the engine is running</li> </ul> <p>Refueling</p> <ul style="list-style-type: none"> <li>• How to refuel gasoline and diesel engines</li> <li>• Refueling LPG engines</li> </ul> <p>Battery Charging</p> <ul style="list-style-type: none"> <li>• Preparing to charge a battery</li> <li>• Charging and changing a battery</li> </ul>		
<b>2321</b>	<b>Forklift - Safe in 8</b>	<i>Coastal</i>	8 min
	<p>Driving a forklift is not like driving a car. Give your employees a quick review of forklift basics and safe operating procedures.</p> <p>Basic design of a forklift  Forklift controls  Inspections  Proper load carrying</p>		
<b>2322</b>	<b>Bucket Trucks</b>	<i>Safety Shorts</i>	5 min
	Bucket trucks are one of many types of aerial lift devices used to allow workers to gain access to heights. But while bucket trucks extend access to many areas, their use exposes workers to risks including falls, electrical shock or electrocution. To help prevent accidents while using bucket trucks, it's important for operators and workers to know the hazards and take steps for avoiding or controlling those hazards.		
<b>2323</b>	<b>Crane Safety - Mobile Cranes</b>	<i>Summit</i>	14 min

	With more than a quarter million crane operators in the U.S. using cranes to lift and move heavy, awkward loads in a wide range of environments, it's easy to understand why crane incidents are nearly always serious accidents with catastrophic and costly consequences. Crane operation is a serious responsibility that requires proper training. This dynamic series will train your workers to follow safe operation procedures by creating an awareness of the hazards and a respect for the potentially catastrophic consequences of crane accidents.		
<b>2324</b>	<b>Crane Safety</b>	<i>Marcom</i>	<b>10 min</b>
	While there are many different types of cranes, they all have the ability to make many jobs much easier by lifting enormous weight. But they also share the potential for disaster when they are not operated safely. Crane-related accidents can often be deadly, due to the heavy loads that are lifted. A small miscalculation, or a brief moment of inattention, and tragedy could strike. Once a load falls, not much can be done to stop it, and there is little time for people to move safely out of the way. A coworker could be injured or killed, and expensive equipment or materials could be damaged or destroyed. "Crane Safety" point out to employees that over 90% of crane-related accidents are caused by human error... and that they are the key to preventing these incidents. Topics covered in these products include: Physical and mental preparation; Equipment inspection; Hazard assessment; Boom, jib and overhead cranes; General and operational safety devices; Crane operations; Hand signals.		
<b>2325</b>	<b>Rigging Safety</b>	<i>Marcom</i>	<b>10 min</b>
	We have all heard the phrase... "A chain is only as strong as its weakest link". When it comes to crane operations, rigging can often be that "weak link". How a load is attached to a crane can make the difference between a successful lift and an unfortunate accident. And rigging-related accidents can often be deadly, due to the large and heavy loads that are lifted. A small miscalculation, or a brief moment of inattention, and tragedy could strike. Once a load falls not much can be done to stop it, and there is little time for people to move safely out of the way. A coworker can be injured or killed, and expensive equipment and cargo could be damaged or destroyed... even the crane itself. "Rigging Safety" point out to employees that over 90% of rigging-related accidents are caused by human error... and that they are the key to preventing these incidents. Topics covered in these products include: Physical and mental preparation; Personal protective equipment; Equipment inspection; Hazard assessment; Slings and hitches; Hand signals; Load angles.		
<b>2326</b>	<b>Dump Truck Operation &amp; Safety</b>	<i>VISTA</i>	<b>12 min</b>
	Dump trucks are perhaps the most versatile vehicles used in the construction industry. They also can be a challenge to operate safely. This program discusses the safe operation for these vehicles.		
<b>2327</b>	<b>Backhoe &amp; Loader Operations "Construction Series"</b>	<i>HI 5</i>	<b>10 min</b>
	With the ability to dig, crape, move or lift materials and perform other specialized tasks, the backhoe/loader is one of the most versatile types of construction equipment. The backhoe operator must know how to perform all of these tasks safely while keeping the backhoe properly maintained. This program provides the viewer with the basic safety rules for backhoe operation, as well as maintenance procedures for backhoe/loader upkeep.		
<b>2328</b>	<b>Backhoe &amp; Loader Safety</b>	<i>Safety Source</i>	<b>5 min</b>
	Discusses general safety practices, operating rules, and maintenance procedures for operators of this equipment.		
<b>2329</b>	<b>Excavations: Safe Working Essentials</b>	<i>Summit</i>	<b>15:30 min</b>
	Complies with OSHA 29 CFR 1926.651-1926.652  Countless excavations are performed each day, in fact; at least 3 people are killed every month in the United States from excavation related accidents. This informative training program educates workers that every soil is different, no two excavations are the same, and every situation can be hazardous. This training program ensures that all worksites and workers are aware of the hazardous injuries that can occur from excavations.  This program covers: What are excavations? Potential hazards Protective measures Safe work practices		
<b>2330</b>	<b>Excavations: Trenches &amp; Shoring</b>	<i>Summit</i>	<b>15 min</b>
	Excavation and trenching accidents are a leading cause of disabling injuries and suffocation in the construction industry. Cave-in prevention is the critical message of this comprehensive program. Several different forms of shoring in a variety of different work sites demonstrate best safety practices to follow on the job. Training with this program will help keep your employees safe and your job on schedule.		

<b>2331</b>	<b>Cave-In: Trenching &amp; Shoring Safety</b>	<i>Coastal</i>	10 min
	<p>Of the numerous trench construction accidents, 400 are deaths and 6,400 are severe injuries. Help give your workers a deep understanding of trench hazards and an even deeper know-how to prevent cave-ins with this best-selling training program. It supports your compliance efforts concerning OSHA 1926.650-652 and describes practical facts on:</p> <ul style="list-style-type: none"> <li>* Grain size and saturation</li> <li>* Cohesion and soil testing</li> <li>* Protective systems</li> </ul>		
<b>2332</b>	<b>Trenching Safety: The Eric Giguere Story "The Buried Truth Uncovered"</b>	<i>Safety Awareness Solutions</i>	40 min
	<p>A powerful story presented by Eric Giguere who encountered a near-death experience as he was buried in a trench while on the job. This DVD is a valuable safety awareness tool for employees seeing the mistakes Eric made while performing his trenching duties. Viewers will be captivated as he drives home the need for safety in the workplace. A work-related accident changed his life, as well as his personal commitment to safety awareness.</p>		
<b>2333</b>	<b>Trenching and Shoring "Construction Series"</b>	<i>HI 5</i>	10 min
	<p>Because cave-ins usually result in serious injury or death, employees must be aware of the hazards associated with trenching and shoring as well as the basic safety practices required for this type of work. This program addresses trenching and excavation hazards and safe work practices to follow during these operations. Topics include: The bidding process; Effects of soil conditions; Stability of the excavation.</p>		
<b>2334</b>	<b>Installing Hydraulic Shoring</b>	<i>Coastal</i>	20 min
	<p>Installing Hydraulic Shoring is designed to teach workers how to work safely in hydraulic shoring. The program covers types of aluminum hydraulic shoring including the vertical shore and the waler shore. The program includes the characteristics of these systems, proper installation and removal and safety tips for working in trenches.</p>		
<b>2334</b>	<b>Roadway Worker Safety: In The Zone</b>	<i>Coastal</i>	24 min
	<p>Roadway work is full of potential hazards — from passing traffic and trenches to electrical wires and hearing loss. Help reduce injuries and fatalities with this vital training program. Topics: Roadwork hazards; Flagging; Night-work operations; PPE; Special training; MSDS; Traffic Control Pattern Awareness.</p>		
<b>2335</b>	<b>Flagger Safety</b>	<i>Safety Source</i>	14 min
	<p>Training for anyone who is assigned the task of traffic control/flagger. Explains proper equipment, operating rules and professional attitude during this important assignment.</p>		
<b>Confined Spaces 2400-2499</b>			
<b>2400</b>	<b>Confined Space Safety</b>	<i>TMLRMP</i>	37 min
	<p>Provides an overview of the general hazards associated with confined spaces, basic atmospheric testing requirements, and more.</p>		
<b>2401</b>	<b>Confined Space Entry</b>	<i>Marcom</i>	10 min
	<p>These products were created specifically for OSHA's Permit Required Confined Space Regulation (29 CFR Part 1910.146). Because of OSHA's broad definition of "confined space", these products will be useful to a number of different types of facilities, including manufacturers, utilities, petroleum and chemical industries, hospitals and many others. "Confined Space Entry" address the major areas of employee training required by the regulation. Topics covered in these products include: Contents of the standard; Responsibilities of the employer, entry supervisors, attendants and entrants; Identifying permit spaces; Types of hazards that can be encountered; Safety equipment; Dealing with emergencies and rescue teams.</p>		
<b>2402</b>	<b>Confined Space: Atmospheric Testing</b>	<i>Coastal</i>	18 min

	A hazardous and potentially deadly atmosphere is a risk that exists every time your employees enter a confined space. In fact, nine out of ten confined space fatalities are due to hazardous atmospheres. Atmospheric testing can be one of the best lines of defense against this dangerous working condition. Confined Space Atmospheric Testing will help educate individuals on the basics and importance of proper atmospheric testing techniques for confined spaces. Topics: Identifying Confined Spaces; Identifying Atmospheric Hazards; Testing for Atmospheric Hazards; Instrument Calibration; Monitoring; Responding to Atmospheric Hazards. In summary: often confined spaces may look, smell and feel harmless. But looks can be deceiving. NEVER trust the atmosphere of any confined space or assume the space is safe to enter. It is imperative that prior to entry AND throughout the confined space operation, the atmosphere must be tested for hazards and those hazards properly addressed for a safe work environment.		
<b>2403</b>	<b>Confined Space: Confine Space Entry - Emergency Rescue</b>	<i>Summit</i>	17 min
	A quick, efficient, pre-planned response to a confined space emergency is absolutely necessary for a successful rescue. Train your workers with this highly acclaimed training program filmed with one of the world's leading industrial companies. Every possible scenario rescue workers may encounter is presented with live-action footage. Your rescue team and emergency response personnel learn best safety practices and proven procedures to recover injured or incapacitated workers.		
<b>2404</b>	<b>Confined Spaces: The Silent Killer</b>	<i>Safety Source</i>	19 min
	Provides an overview of the general hazards associated with confined spaces, basic atmospheric testing requirements, and more. The emphasis for this program is the Attendant. Generally, this person is the least trained, yet has the life and death responsibility for those entering the confined space. This program helps the attendant understand his/her responsibilities.		
<b>Landscaping 2500-2599</b>			
<b>2500</b>	<b>Landscape Maintenance</b>	<i>Safety Source</i>	15 min
	Trains personnel to take responsibility for safety and covers a variety of topics, including: proper attire and personal protective equipment, threats from chemicals and snakes, and the proper use and maintenance of mowers, string trimmers, chain saws, and chippers.		
<b>2501</b>	<b>Groundskeeping Safety: Be A Pro!</b>	<i>Coastal</i>	17 min
	As professional groundskeepers know, maintaining lawns, trees and shrubs requires potentially dangerous equipment and chemicals. Prune and refine your safety measures with this program. It explains how one can avoid unnecessary accidents by thinking: safe? or sorry?		
<b>2502</b>	<b>Power Tool Safety - Landscape</b>	<i>DVD Communications</i>	25 min
	This DVD goes over operational safety issues for the most commonly used pieces of landscape equipment. Covers the Chain saw, String Trimmer, Power Blower, and the Pole Saw.		
<b>2503</b>	<b>Tree Trimming Safety</b>	<i>Safety Source</i>	18 min
	Demonstrates safety and maintenance methods for working with chain saws, chippers, high lift trucks, and general tree trimming safety.		
<b>2505</b>	<b>Saws: Safe &amp; Efficient Operation of Hand-Held Cutoff Saws</b>	<i>Vista Training</i>	17 min
	One of the most common job-site tools is the gas powered cut-off saw. Few saw users have had any training in correct use of gas powered saws. This DVD can provide safety dividends that will provide a lifetime of paybacks. Primary focus on gasoline powered saws; Discusses saw adjustments, safety devices; Correct blade type and application; Correct saw starting techniques; Care and cleaning of the saw.		
<b>2506</b>	<b>Mowers: Cutting It Short - Power Mowers</b>	<i>Safety Shorts</i>	5 min
	This parody of the TV classic, Dragnet, helps remind us to always practice safety when using a power mower.		
<b>2507</b>	<b>Mowers: Cutting It Short - Riding Mowers</b>	<i>Safety Shorts</i>	5 min
	Riding lawn mowers can be dangerous when safety is ignored. Riding mower safety is shown through a Twilight Zone parody. Key Training Points: pre-check list; slopes; & protective clothing.		
<b>2508</b>	<b>Commercial Mower Safety</b>	<i>Safety Shorts</i>	5 min
	This DVD goes over the basic rules and safety procedures in operating any mower. Discusses the rules of riding mowers, checking the oil and gas, and the new safety features that mowers are being designed with.		
<b>2509</b>	<b>Safety Procedures for Lawn Mower Operators</b>	<i>Video Comm.</i>	22 min

	<p>This Video is divided into several parts:  General Mowing Issues  PPE  Walk Behind Mowers  Rotary Ride On Mowers  Reel Mowers  It teaches you how to safely operate each mower type, how to pick the proper mower for the job and how to not only protect yourself but also how to protect the public.</p>		
<b>2510</b>	<b>Lyme Disease</b>	<i>Safety Shorts</i>	5 min
	Lyme disease is a potentially serious illness transmitted through the bite of a tick. Learn how to recognize Lyme symptoms and how to prevent it.		
<b>2511</b>	<b>Outdoor Safety: Critters/Bugs/Plants</b>	<i>Safety Shorts</i>	5 min
	The beauty and tranquility of the outdoor world may be dangerously deceptive to the unwary and uninformed. Two surveyors learn valuable lessons in outdoor safety.		
<b>2512</b>	<b>Poisonous Plants</b>	<i>Safety Source</i>	5 min
	Treatment plants can be hazardous even though they are usually nice, clean places to work. Working with and around pumps, electricity, laboratories, and chemicals require special training.		
<b>Electrical and Welding Safety 2600-2699</b>			
<b>2600</b>	<b>Electrical Safety</b>	<i>Marcom</i>	15 min
	Electricity is all around us. It lights up our homes... powers much of the machinery and equipment that we use... and runs many of our tools. We are so used to it, most employees "take it for granted." Yet electricity can also be dangerous. Employees need to know how electricity works, and what they should do to protect themselves from its hazards. "Electrical Safety" remind employees about electrical hazards they may face in their jobs, and provides the information they need to work safely around electricity. This program will also assist in satisfying the OSHA training requirements under 29 CFR Part 1910.331 (Electrical Safety Standard) for "non-qualified" employees. Topics covered in these products include: How electricity works; Fuses and circuit breakers; Grounding and GFIs; Safe work practices; Outlets, plugs and extension cords; Working with electrical equipment; Using ladders around electricity; Electrical emergencies.		
<b>2601</b>	<b>Electrical Lockout/Tagout Training for Employees</b>	<i>HI 5</i>	10 min
	Being around energy is a part of our daily lives and an important part of our workplace operations. High pressure steam, electricity, hydraulic and pneumatic systems, even the force of gravity are common forms of energy used to power our machines and processes. While energy is obviously useful, it can also be dangerous. Understanding how to properly control hazardous energy is one of the keys to workplace safety. This program reviews the procedures used to control this energy, commonly known as lockout/tagout. Topics include authorized, affected & other employees, energy control procedures and special lockout situations.		
<b>2602</b>	<b>Lockout/Tagout #1</b>		
	The basics of a very important topic that could kill you.	<i>A.J. Gallagher</i>	15 min
<b>2603</b>	<b>Electrical Lockout/Tagout #2</b>	<i>HI 5</i>	10 min
	Show your employees how proper lockout/tagout procedures will protect them from injury when they are working around energized machinery. Topics include: The Energy Control Plan; Authorized & Affected Employees; Use of Locks and Tags; Special Lockout Situations; Servicing Electrically-Powered Equipment.		
<b>2604</b>	<b>Electrical Lockout/Tagout: Lightning in a Bottle</b>	<i>Coastal</i>	15 min
	Fatal injuries occur when hazardous energy is released and safety precautions are not in place. Never allow that to happen. Bottle up that uncontrolled energy, train your employees and boost your lockout/tagout measures with this shockproof program. Kinds of energy lockout/tagout can control; Lockout/tagout basics; OSHA's LOTO standard; Six steps of lockout/tagout.		
<b>2605</b>	<b>Electrical: Lockout/Tagout - Six Steps to Safety</b>	<i>Coastal</i>	10 min

	<p>Construction Lockout/Tagout: Six Steps to Safety emphasizes the importance of following lockout/tagout procedures to prevent unexpected start-up of equipment during machinery servicing and maintenance. The program explains what lockout and tagout is and outlines the six steps involved in performing the task properly.</p> <p>The program is 10 minutes long and can be viewed straight through or paused at the section headings to allow discussion during viewing. Recommended discussion points and demonstration areas are identified throughout the Program Outline section of this leader's guide.</p>		
<b>2606</b>	<b>Electrical Safety: High Voltage Safe Work Practices</b>	<i>Summit</i>	14 min
	<p>High voltage electrical workers are highly trained specialists who work with electrical sources of 600 volts or more. Summit's High Voltage Electrical Safety was designed with these well-trained workers in mind, presenting relevant information in an interesting and motivationally effective manner. Incidents involving electricity of this caliber have serious consequences involving extensive property damage, severe injury, and even death. High voltage electrical workers know the seriousness of the hazards, yet familiarity with a known hazard can lead to complacency, skipping safety steps, or forgetting to practice best safety guidelines from time to time. Opening the programs with dynamic footage of Navy's Blue Angel fighter pilots captures your workers attention. After engaging the audience the program presents critical training elements.</p>		
<b>2607</b>	<b>Electrical Safety: Safe Work Practices</b>	<i>Summit</i>	14 min
	<p>According to Bureau of Labor Statistics, electrocution was the cause of 442 workplace deaths last year. Most of those killed were not electricians, but individuals who worked near or around electricity. This program emphasizes best safety practices and teaches employees how to safely work with or near electricity. Prevent these electrical accidents and fatalities from occurring at your site with Summit's comprehensive three-part series on electrical safety. Featuring real footage from actual electrical sites, this training program is designed for workers who are exposed and come into contact with electrical equipment. Topics: Personal protective equipment; Proper tool selection and use; Grounding; Best safety practices.</p>		
<b>2608</b>	<b>Arc Flash Incident - Lessons Learned from Mark Standifer</b>	<i>HI 5</i>	17 min
	<p>In this powerful program, viewers will see the mistakes Mark made while performing an electrical task. Mark received 2nd and 3rd degree burns over 40% of his body when he was engulfed in an arc blast. Learn the lifesaving lessons from the incident! Topics include: Always following safe electrical work practices; The dangers of complacency when performing electrical work; Hazards of jewelry and flammable clothing; The purpose of an arc hazard analysis.</p>		
<b>2609</b>	<b>Arc Flash - Live to Tell</b>	<i>Coastal</i>	14 min
	<p>Did you know that in the extreme temperatures of an arc flash blast metal vaporizes? The sound can reach 160 decibels causing permanent severe hearing damage. Make sure your workers never experience the devastation of an arc flash explosion. This life-saving training program will bring you and your workers up to speed on the 2009 version of NFPA70E. Get the latest information on arc flash prevention. Topics: Definition of arc flash; Safety documentation and regulations; Latest information on NFPA 70E 2009; Qualified vs. unqualified persons; Three critical approach boundary areas; Job planning and hazard analysis; Lockout/tagout procedures; Proper PPE application.</p>		
<b>2610</b>	<b>Some Mistakes Last Forever</b>	<i>HI 5</i>	5 min
	<p>Some mistakes last forever - as Arnold Blakely discovered after he lost two fingers to the machine he had operated for seven years. On June 5, 1989, Arnold violated two of his company's safety rules: he cheated the guard when he adjusted the coolant line on the machine and he also failed to follow the prescribed lockout/tagout procedure. The resulting accident and its effects are graphically re-created in this powerful DVD. Your employees will long remember the program's simple but life-saving message: always follow approved work practices.</p>		
<b>2611</b>	<b>Welding Safety</b>	<i>Marcom</i>	14 min
	<p>People have been welding in one form or another for over 2,000 years. But like many industrial processes, welding can be very dangerous. Whether an employee is working with the hazardous gases of an "oxyacetylene" unit... the high voltage of "stick welding"... or the combination of gas and electricity that powers "MIG" and "TIG" operations... flying sparks, toxic fumes, electric shock and high temperatures are just some of the things that can make welding a dangerous proposition. "Welding Safety" remind employees that there are indeed a number of hazards associated with welding, and provide the information they need to work safely when involved with welding operations. Topics covered in these products include: Getting "authorization" for welding operations; Sparking and the risk of fire; Guards and protective barriers; Hazardous fumes and ventilation; The use of respirators and other personal protective equipment; Eye protection (welding helmets, filters, glasses and goggles); Inspecting welding equipment; Proper welding safety procedures.</p>		

## Waste Water and Refuse 2700-2799

<b>2700</b>	<b>Storm Water Management</b>	<i>Summit</i>	11 min
	Pollutants can damage the quality of water at your site and in the surrounding area, affecting community and environmental health. Regulated by the EPA, stormwater management affects a variety of industrial and construction activities. This comprehensive Stormwater Management program creates an awareness of the contributing causes of stormwater pollution and teaches best practices, such as equipment maintenance, proper storage, disposal, and handling of substances, and good housekeeping practices to stay in compliance and keep our environment clean.		
<b>2701</b>	<b>Storm Water Runoff Responsibilities</b>	<i>Safety Source</i>	17 min
	This program will discuss wet weather discharges or storm water runoff. We'll discuss a range of information, all related to what each person and organization can do to help reduce the harmful effects of storm water runoff. Runoff is a major concern to our global environment, people, animals and ECO systems.		
<b>2702</b>	<b>Sanitation Safety</b> ( <i>Four sections of 20 min. each</i> )	<i>TMLRMP</i>	80 min
	This DVD is a more realistic piece that actually tells a day in the life of a sanitation veteran and what dangers there are while working. It is geared towards sanitation employees, both new and seasoned veterans. It generally covers the proper procedures for starting a route, on the route and back at the dump sites, along with a number of other safety issues, such as: Rear Riding Safety; Auto Loading Safety; Recycling Safety; Transfer Station Safety.		
<b>2703</b>	<b>Solid Waste Training</b>	<i>Safety Source</i>	5 min
	This program provides a broad over view of hazards Solid Waste workers face in the course of their everyday jobs. Contains critical information for new employees but also effective for experienced workers. Addresses proper clothing, personal protective equipment, fire protection, mechanical and electrical safety.		
<b>2704</b>	<b>Solid Waste Training: Safety Orientation</b>	<i>Safety Source</i>	11 min
	This program provides a broad over view of hazards Solid Waste workers face in the course of their everyday jobs. Contains critical information for new employees but also effective for experienced workers. Addresses proper clothing, personal protective equipment, fire protection, mechanical and electrical safety, and more.		
<b>2705</b>	<b>Solid Waste Training: Backing Accident Prevention</b>	<i>Safety Source</i>	10 min
	A large portion of total accidents in the Solid Waste industry occur while backing. However, backing accidents are 100% preventable. This program will give your drivers effective tools and teach them techniques that will help them avoid backing accidents. Topics include: Daily inspection; Spotters; Hand Signals; Cone of Invisibility; Children/Apartment complexes and other difficult backing situations.		
<b>2706</b>	<b>Sewers: Managing Sanitary Sewer Overflows</b>	<i>CIRSA</i>	19 min
	There are many factors that cause sanitary sewer overflows including: infiltration and inflow, undersized systems, pipe failures, equipment failures, sewer service connections, and deteriorating sewer systems. This DVD provides in-depth information regarding prevention, inspection, and maintenance to help reduce property damage, minimize inconvenience to citizens, and lessen a public entity's liability exposure should a sanitary sewer overflow occur.		
<b>2707</b>	<b>Sewers: Wastewater Backup</b>	<i>TMLRMP</i>	21 min
	Wastewater backup can cause many problems for individuals and consequently for cities. This DVD explains the "do's and don'ts" of how to deal with the public when backups occur. <i>Humorous version</i>		
Safety Culture and Mindset			
<b>2800</b>	<b>Safety Mindset: The Eric Giguere Story "The Buried Truth Uncovered"</b>	<i>Safety Awareness Solutions</i>	40 min
	A powerful story presented by Eric Giguere who encountered a near-death experience as he was buried in a trench while on the job. This DVD is a valuable safety awareness tool for employees seeing the mistakes Eric made while performing his trenching duties. Viewers will be captivated as he drives home the need for safety in the workplace. A work-related accident changed his life, as well as his personal commitment to safety awareness.
